

RIVER'S HIGH STAGE ADDS NEW DANGER

Residents of Southeastern Corner of Arkansas Face Perilous Position

MANY TOWNS FLOODED

Level of Mississippi River at Arkansas City is Fifteen Feet Above the Town

IMMEDIATE AID IS NEEDED

BULLETIN.

ARKANSAS CITY, Ark., Feb. 5.—While navigating the flooded main street here today William Webster, a telegraph messenger boy was thrown into the water by the capsizing of his boat and drowned. A companion escaped.

Waters from the Arkansas river which has inundated the major portion of Arkansas City was rising tonight at the rate of an inch every hour but there seemed no immediate danger. All the inhabitants have moved to upper stories and laid in large stocks of food and fuel. Fear is expressed, however, should the Mississippi at this point reach the stage predicted that the levees that will give way and the town be destroyed.

LITTLE ROCK, Ark., Feb. 5.—Residents of the territory in the southeastern corner of Arkansas tonight faced a perilous situation. Two-thirds of Lincoln, DeSha and Chicot counties are covered with water, which is flowing southward thru a half dozen breaks in Arkansas river levees. Arkansas City, McGehee and Lakeville and dozens of smaller towns are flooded and the high stage of the Mississippi river added a new danger.

At Arkansas City the level of the Mississippi river is fifteen feet above the town.

Five Hundred Are Homeless.

So far all Mississippi levees are reported holding, but the flood waters inside the levees are certain to weaken the mud at Arkansas City, the stage of the Mississippi late today was 55 1-2 feet, the highest ever known. Water from the Arkansas river flood is six to eight feet deep in the main streets of the town and expected to go at least four feet higher. About 1,000 residents have left the city, which now is cut off from communication with the outside world except by boat. There are 500 homeless and hungry persons in the town.

A dispatch early tonight said the Chicot levee is in a precarious condition and if it should break, Arkansas City would be wiped off the map. A message received from there tonight said immediate aid is needed.

Relief Train Is Sent Out.

A relief train in charge of St. Louis, Iron Mountain and Southern railroad officials and Murray A. Eubach of Little Rock, a representative of the American Red Cross society, left today for the flooded district along the lower course of the Arkansas. The train carried a great supply of food and a big motor launch. It was planned to run the train as far below Pine Bluff as the flood will permit, after which the party will proceed in the launch. It is reported that many persons living in the flooded district refused to heed the warnings to leave their homes and it is said that falling waters will reveal that many lives have been lost in addition to those already reported.

Issues Special River Bulletin.

Washington, Feb. 5.—The weather bureau tonight issued the following special river bulletin:

"The Ohio river at Evansville and Cairo has begun to fall, while the Mississippi below Cairo began to rise. Stages Saturday morning in feet and tenths were as follows:

Cairo, 53.3, a fall of 0.1.
Memphis, 42.1, a rise of 0.5.
Greenville, 49.3, a rise of 0.3.
Arkansas City, 55.3, a rise of 0.3.
Lake Providence, 47.3, a rise of 0.3.
Vicksburg, 51.6, a rise of 0.3.
Natchez, 50.8, a rise of 0.4.
New Orleans, 18.7, a rise of 0.2.
"With the levees remaining intact stages as follows are indicated:

Arkansas City—not to exceed 56.1 feet by Feb. 7.
Greenville—50 to 51 feet by Feb. 18.

Vicksburg—53 to 53.5 feet by Feb. 20.

Yazoo City—29 feet by Feb. 29.
"Stage of 56 feet is indicated in the White river at Clarendon, Ark., by Feb. 8. The previous high water stage at this station was 56.6 on March 20, 1909."

Levee Breaks; Floods Clarendon.

Clarendon, Ark., Feb. 5.—The White river levee broke here tonight flooding this town of 5,000 inhabitants. Because the break occurred near the city limits the water was several hours in reaching the residence section and ample warning had enabled all women and children to be moved to the more substantial structures in town and to upper stor-

GERMAN RAIDER IS IDENTIFIED AS PONGA

FORMER MASTER OF APPAM TELLS OF CAPTURE OF LINER

Asserts Name of Raider Appeared in English on Navigation Charts—Question of Ownership of Vessel May Remain an Open Issue Until End of War.

New York, Feb. 5.—The German raider which captured the Appam was the Ponga according to Captain H. G. Harrison, former master of the Appam who reached here today from Norfolk on the Steamship Hamilton. With Captain Harrison were his officers and crew numbering 15 who probably will be sent to England on the White Star liner Baltic.

Captain Harrison said he had no other resources than to surrender when he saw the warlike character of the ship which stopped him. When the cruiser was less than two ship's lengths away he was ordered to board her with his deck officers and a number of his men. The name of the raider, he said, appeared in English on the navigation charts hanging in the vessel's pilot house and the chart room, where he was summoned by the commander.

"I had little time to make observations, however," Captain Harrison said. "With my men I was ordered below decks and kept there for two days with the crews taken from ships previously sunk. While I talked with our guards, many of whom spoke English well, they gave no information.

"When I was placed on board my ship again I found it in full possession of the Germans. Bombs had been planted on the bridge in the chart house and in the engine-room. I was told that at the first sign of trouble they would be exploded and the ship sent to the bottom.

"Nothing was taken from the Appam except a shipment of gold bars from West Africa, valued at about \$180,000. The Germans evidently knew we had this gold for I was asked about it the first thing when I stepped onto the deck of the raider.

"I have no complaint to make of the way we were treated by the Germans. I was invited by Lieutenant Berge each evening at six o'clock to have a West African cocktail with him. This was served to us in what was, before our capture, my cabin. I was not allowed on the bridge or in the chart room."

May Remain an Open Issue.

Washington, Feb. 5.—The question of ownership of the British Steamship Appam, brought into Hampton Roads by a German prize crew, may remain an open issue until the end of the war with the ship meantime held in the custody of American officials at Newport News.

Conflicting claims on behalf of Germany and England are being considered by the state department and the neutrality board, but there has been no indication of a decision. The officials generally are inclined to the view, however, that the case must be governed by the Prussian treaty of 1828, which grants Prussian prizes free entry to American ports and declares that they "may freely be carried out again at anytime by their captors to the places expressed in their commissions."

A literal construction of that provision which some officials favored would permit the Appam to remain indefinitely at Newport News.

Forward Mail to Newport News.
Newport News, Va., Feb. 5.—One hundred and fifty-three bags of first class mail from the British Steamship Appam brought here by a German prize crew were forwarded here today for shipment from New York to England and France.

SWITCHMEN GO ON STRIKE.

St. Louis, Mo., Feb. 5.—Members on the Washburn railroad system went on the Switchmen's Union employed on strike at 6 o'clock tonight. Conflicting statements regarding the number of men out were made by union officials and railroad officials.

MUNITION PLANT FIRE

ALARM AUTHORITIES
Ottawa, Feb. 5.—A fire today in the Jardien munition factory at Hespeler, Waterloo county, Ontario, so alarmed the management and the village authorities that they applied to Ottawa to have ordered out an overseas regiment stationed in the neighborhood. The blaze, however, was got under control after it had destroyed the shell manufacturing building and damaged several other structures.

No loss of life has been reported.

River Falls at St. Louis.

St. Louis, Feb. 5.—With the exception of the lowland district of Alexander county, Illinois, north of Cairo, the southern halves of Missouri and Illinois tonight were well on the road to recovery from the effects of the recent flood. The Mississippi river here fell 2.5 feet during the day. The Meramec fell more than three feet and the lower Illinois receded about half a foot. Tonight snow and sleet fell alternately in St. Louis.

Dunne Contributes to Relief.

Springfield, Ill., Feb. 5.—Governor Dunne tonight contributed \$1,000 out of his personal contingent fund, allowed by the general assembly, to aid in the relief of sufferers from the floods in southwestern Illinois.

ACQUIT MRS. MOHR; NEGROES GUILTY

Jury Fixes Penalty for Brown and Spellman at Life Imprisonment

DELIBERATE SEVEN HOURS

Mrs. Mohr Swoons While Foreman is Announcing Verdict, But Quickly Recovers

RICE DECLINES TO COMMENT

PROVIDENCE, R. I., Feb. 5.—Mrs. Elizabeth F. Mohr today was acquitted of the charge of having instigated the murder of her husband, Dr. C. Franklin Mohr, of C. Victor Brown and Henry H. Spellman, negroes, accused of the actual killing, were found guilty. The penalty was fixed at life imprisonment.

Mrs. Mohr Swoons.
The jury reported at 6:07 o'clock after having been out since 10:50 o'clock this morning. Mrs. Mohr swooned while the foreman was announcing the verdict.

"Is there any other charge against these defendants?" inquired Justice Stearns.

"There is, Your Honor," Attorney General Rice, replied. "But Mrs. Mohr is on bail on the other charge."

"The defendants Brown and Spellman are committed without bail," said the court, "and Mrs. Mohr is discharged from custody on this complaint."

The other charge against Mrs. Mohr and the two negroes is that they committed an assault on Miss Emily Burger with intent to kill.

Miss Burger was shot while riding with Dr. Mohr on the night he was attacked. Brown and Spellman are accused of actually firing the shots at Miss Burger, while Mrs. Mohr is charged with being an accessory before the fact.

Desired Further Instructions.

The first word received from the jury after it took the case came at 5:25 when it was announced that further instructions were desired. Half an hour later the prisoners had been brought to the court room, but a deputy sheriff informed the judge that the jury had decided that the instructions asked for were not needed.

Less than ten minutes elapsed when word came that the jury was ready to report. After each man had taken his place in the jury box the clerk asked the foreman:

"Do you find the defendant Cecil Brown guilty or not guilty?"

As the foreman replied, "Guilty," Mrs. Mohr collapsed.

The clerk continued: "Do you find the defendant Henry Spellman guilty or not guilty?"

"Guilty," the answer came.

"Do you find the defendant Elizabeth F. Mohr, guilty or not guilty?"

"Not guilty."

Mrs. Mohr apparently was in a stupor when the foreman pronounced the words "not guilty." She recovered quickly however.

Attorney General Rice declined to comment on the verdict. He would not say when the other charge against Mrs. Mohr would be tried, if at all. The trial began January 19th.

Physician Shot Aug. 31, 1915.

Dr. Mohr, a physician practicing in this city and Newport, was shot fatally on the evening of August 31st, 1915, as he was sitting in his scaled automobile in a lonely spot in Barrington.

George W. Healis, the negro chauffeur, made a confession in which he alleged that Mrs. Mohr had agreed to pay him, Brown and Spellman \$5,000 if they would murder her husband. The police claimed the other two negroes made confessions which subsequently were repudiated.

Healis pleaded guilty to manslaughter and became a witness for the state.

Dr. and Mrs. Mohr had been living apart for two years as a result of quarrels growing out of his alleged attentions to Miss Burger and other women. Separation suits were pending and the state claimed that Mrs. Mohr sought her husband's death for revenge and to obtain his estate. The defense maintained that Mrs. Mohr loved her husband and that she had been brought into the case by the actual murderer who wished to escape punishment.

AUSTRALIAN PREMIER

ON WAY TO ENGLAND.

Honolulu, T. H., Feb. 5.—William Hughes, premier and treasurer of Australia arrived here today aboard the steamer Makura on his way to Vancouver, B. C., and Montreal to join Robert L. Borden, the Canadian Premier, it was said. The two will proceed to London to attend an imperial conference. Premier Hughes refused to talk for publication.

TELEGRAPHIC BRIEFS

WASHINGTON, Feb. 5.—The treasury conscience fund was enriched today by two contributions, one of \$4,876.50 from a New York lawyer on behalf of a client. The other was two ten cent pieces from an unidentified person in Michigan, who suggested that they be used to support a minister of the gospel. The New York contribution is one of the largest ever received.

CHICAGO, Feb. 5.—Daniel Reilly, 18 years old, was found guilty today of the murder of John Mosier, a saloon keeper, who last July resisted two robbers and was shot to death. The jurors who deliberated all night fixed the punishment at fourteen years in the state penitentiary.

WASHINGTON, Feb. 5.—Department of justice agents are keeping close on the trail of General Felix Diaz, because of reports of a proposed expedition from southern Mexico into Guatemala. Assistant Attorney General Warren said today that Diaz is now in New Orleans and under close surveillance.

CHICAGO, Feb. 5.—Announcement was made today that the G. A. R. post here had let a contract for a soldiers' monument to be placed in the court house square at a cost of \$3,700. Two cannon, to be donated by the government, will be placed near the monument.

KEOKUK, Ia., Feb. 5.—George Hensel, 63 years old, former editor and owner of the Post Zeigler, a German newspaper published in Keokuk, died at his home here today. Mr. Hensel came with his parents to this country when he was 10 years old and lived in St. Louis until twenty-five years ago when he came to this city. The widow and two daughters survive.

LONDON, Feb. 5.—King George today made his first public appearance since he suffered injury from an accident while reviewing the British troops in France last October. His majesty attended a performance of Verdi's Requiem in memory of the soldiers who have fallen in the war.

LOS ANGELES, Cal., Feb. 5.—Three doctors attending George M. Reynolds, the Chicago banker, who is seriously ill here, issued a bulletin at 9:30 a. m. today stating that the condition of the banker had greatly improved. He is not, however, out of danger.

MILWAUKEE, Wis., Feb. 5.—The body of a woman, stripped almost naked, covered with snow and identified as Miss Jane Elliott, was found in the rear of a dye works establishment today. She had been missing for three days.

TOLEDO, O., Feb. 5.—Fire in the heart of the business district today caused damage estimated at \$100,000. It started in the Kupp & Bowman company drug store.

NEW YORK, Feb. 5.—A manufacturer of motorboats who has an exhibit at the motorboat show, announced today that a representative of the navy department had ordered the building of a high speed, sixteen cylinder, 800 horsepower boat for use in the coast patrol service.

MINEOLA, N. Y., Feb. 5.—Michael Killiea, a dairyman, who was employed by J. P. Morgan on his estate at East Island, Glen Cove, has won a verdict for \$20,000 damages against Mr. Morgan for injuries suffered on the night of July 13 last when Mr. Morgan was shot by Frank Holt, also known as Erich Muenier.

FORT MADISON, Ia., Feb. 5.—Harry Rose, escaped parole violator from the state penitentiary here, has been returned to prison after nearly four years of freedom. He was recaptured in Hutchinson, Kansas, last week.

THOMPSON SPEAKS TO G. O. P. PARTY LEADERS IN DECATUR

DECATUR, Ill., Feb. 5.—Mayor William H. Thompson of Chicago, spoke here today to three hundred Republican party leaders from eleven Central Illinois counties in support of his candidacy for national committeeman from Illinois. He declared that if the Republicans are to succeed in this year's elections, they would have to put "new blood" into their tickets. He urged his proposal that the fight between himself and Roy West for the place on the national committee be decided by means of their relative vote, each to run in the Republican primaries for delegate at large to the presidential convention.

Besides the Chicago delegation there were good delegations from Sangamon, Champaign, Coles, De Witt, Douglas, Platt, Shelby, Logan, Christian, Montgomery and Macoupin counties.

FIND BODY IN RIVER.

Pittsburgh, Pa., Feb. 5.—The body of Miss Hazel Schoenfeld, aged 20, of Altoona, was found floating in the Allegheny river here today. Miss Schoenfeld, who was a student in the School for Nurses at the Allegheny General Hospital, is said to have given medicine, prescribed by one of the hospital physicians, to the wrong patient.

CONSIDER PHRASE COVERS PRINCIPLES

Outlook for Early Settlement in Lusitania Case is Promising

BERNSTORFF OPTIMISTIC

Germany States Submarine Warfare Has Been Modified Because of Friendship for U.S.

SEND DRAFT TO PRESIDENT

WASHINGTON, Feb. 5.—For the word "illegal," which Germany was unwilling to incorporate in the tentative draft of the Lusitania agreement, the Berlin foreign office has substituted a phrase which certain high authorities in a position to be familiar with the status of the negotiations, consider covers all the principles involved in the question of submarine warfare.

Killing Was Without Intent.

The language substituted for the objectionable word "illegal" in a tentative communication now being sent to the United States, in the Lusitania disaster was without considered by President Wilson, intent, because the destruction of the Cunard liner was an act of reprisal and the German government agrees that reprisals should not be applied to neutrals.

From various diplomatic and official quarters tonight came the information that the outlook for an early settlement is promising. It was indicated that the tentative form of settlement, which should be acceptable to the United States, will be embodied in a formal communication from Germany, approaches nearer the desires of the United States than any yet submitted by authority of Berlin officials.

Secretary Lansing and Count von Bernstorff, the German ambassador, met informally here today. There was no intimation that the ambassador had been informed he might have to communicate with his government on the subject again. In fact, the ambassador seemed optimistic at the conclusion of the talk.

Ready to Co-operate with U. S.

The cardinal points of the tentative form of settlement were obtained tonight. The agreement is prefaced with the statement that submarine warfare in the North sea was inaugurated by Germany in retaliation for what she regarded as the "illegal" British blockade under the orders-in-council. It then states that the method of conducting submarine warfare in the North sea has been modified on account of the friendship of Germany for the United States and because of the fact that American lives have been lost. Many say the killing of Americans was not intended and in addition to expressing regret for the loss of American lives, assumes liability and offers reparation in the form of indemnity. The last portion of the document expresses the readiness of Germany to co-operate with the United States in any effort looking toward the freedom of the seas.

Secretary Lansing sent the draft to President Wilson last night. Count von Bernstorff expects to be called to the state department some time Monday or Tuesday. Secretary Lansing allowed it to become known that he might have some announcement on the Lusitania case to make within the next few days.

Consider Political Situation.

It was asserted today that the state department had shown a readiness to fall in line with Germany's ideas so far as it could without sacrificing the main issues involved. Officials are described as having been moved to some extent by a consideration for the political situation in Germany and the recognized danger to the present German cabinet of strengthening the hands of a powerful minority party, which from the beginning has advocated the extreme views of Admiral Von Tirpitz regarding the submarine warfare.

The German officials here are in accord with the official opinion expressed in Germany yesterday that the German government believes it has gone as far as it possibly can to bring its viewpoint in line with that of the United States and that Count von Bernstorff has exercised the limit of authority conferred upon him in drafting the proposal now under consideration.

BLAZES QUICKLY EXTINGUISHED

Ottawa, Ont., Feb. 5.—A flash of flame from the ruins of the central section of the parliament building and the alarm of fire which quickly followed, caused excitement throughout the city tonight, but the blaze was quickly extinguished. Little additional damage was caused. The fire started in a room in the central section of the parliament building.

DR. JOHN SILVER DIES.

Geneva, N. Y., Feb. 5.—Dr. John Archer Silver, for the past twenty years head of the history department of Hobart College died today after an illness of two days with septic poisoning. He was a graduate of Princeton and had one graduate work at Johns Hopkins and Heidelberg Universities.

FEAR PLOT TO BLOWUP NEW YORK'S SUBWAYS

POLICE ORDER ASSIGNS PATROLMEN TO ALL STATIONS OF SYSTEM

No Confirmation of Assertion That Plot Had Been Uncovered Is Obtainable—Hundreds of Persons Are Stopped.

New York, Feb. 5.—A general police order issued tonight assigning patrolmen to all stations of the subway system and to the Hudson Terminal building led to reports that threats had been made to dynamite New York's underground railroads, but no confirmation was obtainable of the assertion that a plot had been uncovered.

Frank H. Hedley, vice president and general manager of the Interborough Rapid Transit company, declared at his home at Yonkers tonight that he had heard of no threats and that he had made no request for police protection.

Patrolmen were stationed at 11 o'clock, not only at all subway stations, but at all stations of the elevated lines and the steam roads. Police officials were reluctant to discuss the order sending out the men. The officers themselves apparently were ignorant of their mission except that they had instructions to hold up and question all persons carrying suspicious looking packages or bags. It was said, however, that there had been many unsolved burglaries of late and that an effort was being made to round up suspects.

Hundreds of persons carrying packages, suit cases and satchels were stopped by uniformed policemen at the stations all over the city. When they protested against snoring what they were carrying they were threatened with arrest.

Women living in the Bronx, who were returning to their homes from masquerade parties, carrying their costumes in suit cases, were compelled to open the suit cases and permit an investigation of their contents.

Men and women having with them bundles containing groceries and meats for their Sunday dinners were not exempt from the police vigil. The policemen had orders to remain on duty until 6 o'clock in the morning.

GOVERNOR DUNNE VETOES ITEM OF \$7,932 ALLOWED MRS. DURAND

Gives as Reason Failure of Mrs. Durand to Sign Stipulation Signifying Her Intention to Drop Damage Suit.

Springfield, Ill., Feb. 5.—Governor Dunne tonight signed the senate bill, passed by the special session of the general assembly appropriating \$100,000 to reimburse owners of stock slaughtered to prevent the spread of the foot and mouth disease, but vetoed the item of \$7,932 allowed Mrs. Scott Durand of Lake Forest, Ill.

The governor gave as his reason for this action the failure of Mrs. Durand to sign a stipulation prepared by Attorney General Lucey signifying her intention to drop the damage suit of \$100,000 brought against state officers, in compliance with a promise to do so which she is said to have made to legislative leaders. The suit was filed in Lake county.

Governor Dunne also approved the senate bill amending an act to provide for the printing and distributing of ballots. The amendment will reduce the number of primary ballots with a consequent saving of thousands of dollars in the state. Today was the last day for signing bills.

MORE THAN THIRTY PERSONS ARE HURT IN INTERURBAN COLLISION

FLINT, Mich., Feb. 5.—More than thirty persons were injured tonight when an interurban car bound from Flint for Saginaw crashed into an empty, southbound special at Coldwater Switch, about a mile and one quarter from Flint. More than 100 persons were in the Saginaw bound car, it is said. Eleven victims were brought to a local hospital. Others who sustained lesser injuries were taken to their homes. It is believed that all will recover.

The special was standing still on the crest of a hill, according to it's motorman when the other interurban bore down upon it.

TRAIN SHEDS COLLAPSE.

Portland, Ore., Feb. 25.—Under the weight of accumulated ice and snow the passenger train sheds of the Spokane, Portland & Seattle railway in the northern part of the city collapsed tonight for a distance of more than 200 feet. Mrs. T. W. Helms, of Hillyard, Wn., and her six year old son, Gordon, were injured.

VILLA'S WHEREABOUTS PUZZLE CARRANZA AUTHORITIES.

El Paso, Texas, Feb. 5.—The whereabouts of Francisco Villa is proving a puzzle to Carranza authorities in Northern Mexico. While several detachments of troops were scouring the country for fifty miles east of Juarez where Villa was reported to be advancing toward the international border, advices from Madera, Chihuahua, today, reported Villa in the Santa Clara district, west of the Central Mexican railway.

SALONIKI ATTACK IS NEAR AT HAND

Artillery Duel is Reported in Progress Near Doiran

MAY PRELUDE ADVANCE

Few Operations of Importance Are Recorded Elsewhere Along the Many Fighting Lines

AIRSHIP ATTACKS DVINSK

The long looked for offensive of the Teutonic allies against Saloniki may now be on, or near at hand. A dispatch from Saloniki reports that an artillery duel has been in progress for two days near Doiran, where strong forces of the central powers for some time have been facing the positions of the entente allies. Such a bombardment might well be the prelude to an advance movement by the Teutons and their allies which, according to recent reports from the Balkans, was set for about the middle of the present month, but which may even now be in progress.

According to the message thru entente sources Saloniki reports the opening of the bombardment the British heavy guns were dominating those of the Germans and Bulgarians opposed to them.

Few Operations of Importance.

Elsewhere along the many fighting lines of the widespread war field few operations of importance have been recorded. On the Franco-Belgian front the French artillery continues its activity, the bombardment being intense in the Champagne and the Argonne. Berlin reports cases of sporadic activity by infantry, one instance being south of LaBasse canal, where the British are said to have been repulsed when one of their detachments attempted an advance while south of the Somme, where the Germans made gains only recently, the French were beaten off in a hand grenade attack. In the Vosges the German guns have been bombarding French positions.

Few reports of pronounced activity come from Russia or Galicia, a German airship attack on Dvinsk being the only incident in this war theater mentioned in the German communication.

Along the lines where the Austrians and Italians are engaged, the deadlock shows no signs of being broken. German reports declare the Italians are worn out and discouraged by their failure to advance and have recognized the impossibility of breaking the Austrian lines.

No indications of lagging Italian activity, however, are reflected in the official reports.

From Mesopotamia the Turks report driving back the British to their former positions by a counter-attack when General Aximer's relief force attempted a nearer approach to Kut-el-Amara, where another British force is beleaguered.

It is announced in Vienna that peace negotiations with the Montenegrin cabinet ministers remaining in their country have not been begun by the Austrians and will not be started until the ministers are furnished with unimpeachable credentials empowering them to conclude a peace that shall be binding.

RECOMMENDS THAT DEMANDS BE ENFORCED

New Bedford, Mass., Feb. 5.—The textile council made up of delegates from all the cotton mill workers unions, representing 32,000 operatives, voted tonight to recommend to individual unions that they enforce their demands for a full ten per cent advance in wages even to the point of a strike. During the coming week the unions will vote on the unions will vote on the strike question.

RURAL CARRIERS DELIVER MANY PIECES OF MAIL

91,112 Pieces Handled by Men During Month of January—1329 Families Served—Routes Started in 1900.

During the month of January the rural carriers on the eight routes out of Jacksonville delivered and collected a total of 91,112 pieces of mail. Of this total the delivery pieces were 83,041 and the collected pieces 8,371. The total was the largest count made in the history of rural delivery in Morgan county.

In delivering and collecting the mail above enumerated 1,329 families were served and the eight carriers traveled a total of 290 miles per day. During the month of January the roads have been the worst in years. This has taxed the ingenuity of the carriers to make their deliveries. The working hours, owing to the roads, has been an average of about nine and one-half hours per day.

When one considers that the rural mail business in Morgan county is comparatively new it has had a wonderful growth. The first route was established about 1900 and it was carried by Simon Bernaudes. Later S. P. Chesney took the route. Afterward others were established until today residents in every direction from Jacksonville have first-class rural service.

An incident happened in Chicago which was something of a blow to strict Methodist practice. A safe blower at work was shot at by a policeman and but for a deck of cards he had in his pocket, the bullet would have pierced his heart. The moral is plain.

Harry K. Thaw has established himself in the real estate business in Pittsburgh and according to his statement there is to be no more "filthy dallying" but strict business. Now that Thaw is in business, if he could get as much free publicity as he had when in prison there would be no question about his success.

In Belleville they are not as courteous to the women voters as they are in this city. The city clerk there has ruled that women are not entitled to representation as election officials in the city primary. The official bases his opinion on that sentence in the law which says that women shall have the right to vote only for officers not designated in the constitution.

Justice Hughes, Colonel Roosevelt, Governor McCall, former Senator Root and now Governor Johnson, have all refused to permit their names to appear on the primary ballot in states where such action has been suggested. Possibly these men all familiar with political life, have their own individual reasons for believing that some other method is better for capturing the highest honor in the gift of the party.

Based on a long series of acquittals of women charged with murder in Chicago one must believe that the same spirit prevails in Providence, R. I., where Mrs. Elizabeth F. Mohr was yesterday acquitted of conspiracy in the murder of her husband. Newspaper reports of the trial indicated the guilt of the woman and the two negroes charged with complicity, but a jury has decided that the wealthy and handsome woman is not guilty and that the two negroes conceived and executed the crime.

Congressman Rainey is now being mentioned as a possibility for President Wilson's running mate, since Vice President Marshall is likely to

Rippling Rhymes By WALT MASON

You write a book that makes a hit; it's full of happy phrases; and readers all refuse to quit a-singing of its praises. The novel fan your volume buys, whenever he can strike it; and then just as Gooder rises and writes some books "just like it." The country's inundated with your type of sparkling story; Jones and Brown and Plinks and Smith are borrowing your glory. The Just As Gooder lies in wait for all who gain attention, and all their curves he'll emulate, and will call to fierce to mention. If you invent a garden gate, that has all others beaten, the Just As Gooder makes its mate before his grub he's eaten. If you turn out a type of poem, you have the same old trouble; the Just As Gooder rushes home, in haste to write its double. If you're a cold, such ailments rise, at divers times, and curse one. The Just As Gooder sits and lies, and says he has a worse one. The Just As Gooder trails along, like doom, behind his betters, and makes a mess of Art and Song, Mechanics, Commerce, Letters.

DATES IN ILLINOIS HISTORY.

Feb. 6, 1682—La Salle and his exploring party reached the confluence of the Illinois and Mississippi rivers.

decline to run again and Senator Lewis is not a candidate. Mr. Rainey, however, may prefer to represent the twentieth congressional district in congress—a district safely Democratic—for he has enough good hard political sense to know that the chances would be strongly against his election as vice president, and that even if nominated and elected, the vice presidency usually ends a political career.

It has been pointed out that the terms "pacifism" and "preparedness" do not by any means necessarily represent opposing views. The vast majority of American advocates of preparedness also believe in and greatly desire peace, but look upon preparedness plans as being the most certain and reasonable way of maintaining peace. The pacifist who believes in peace at any cost is the extreme definition and there are very few in this class.

A company has been organized for the manufacture of an interlocking railroad rail which it is declared will vastly lessen the number of railroad accidents. The invention it is said will do away with interlocking joints kept together with fish plates, and not only will perfectly smooth and continuous surface for the wheels be provided, but low joints will be impossible. If as claimed the invention will also take care of contraction and expansion and prevent the spreading of rails, fully fifty per cent of the railroad wrecks will be done away with. The man who perfects such an invention should be rewarded not only with millions in profit, but decorated with a medal as well.

The Springfield, Mass., Journal points out that it is mighty good business for America to sell motor cars to foreign powers and then sell horses and mules, for the buyers must come back for gasoline and corn. But the purchase of horses is not likely to be repeated while exports of gasoline will continue after the war. Despite the reported heavy exports of horses and mules, government records of domestic animals show that in 1915 there was only the loss of 1 of 1 per cent of the total number of American horses and that American mules, notwithstanding the European demand, had increased 1.9 per cent.

Moving Pictures of Surgery.
And still another use for the moving picture has been suggested by a demonstration before the New York County Medical society. A film record of a surgical operation was taken, the purpose being to show that pictures of operations by experts may be reproduced for the instruction of students in medical schools and for the general use of the profession. Experts in surgery are so proficient, so steered to giving no thought to surroundings when engaged in delicate surgical work that the workings of a moving picture machine in the operating room would not annoy them in the least. There are surgeons, no doubt, who set such value on their individual expertness that they would not be willing to divulge in such a definite way to all the profession exactly the procedure in difficult operations.

An Embargo on Sense.
The Philadelphia Ledger, under the headline above, says that political leaders in the halls of congress who are making a loud demand for an embargo on export of munitions are furnishing an example of an embargo on sense by the absurdity of their argument. This embargo, the Ledger declares, is one on the facts of political history in that the "statesmen" are unwilling to give heed to the records of the disastrous embargo period in the days of Jefferson and Madison. They refuse to see or profit by the experience of the country or the general lessons of the past. It is in the light of history that the Ledger maintains the aforesaid leaders are presenting the spectacle of an absolute embargo on knowledge.

The harmonious action of Republicans in Chicago and down state in selecting their delegates at large to the national Republican convention is delightfully in contrast to the conditions which prevail in Illinois Democracy. Naturally the whole trouble centers in Cook county where Roger Sullivan is endeavoring to see to it that his friends are greatly in the majority. Under the guise of a harmony move Sullivan associated the names of Senator Lewis and Governor Dunne with the names of his close friends, but the senator and governor will have none of it and have made the open avowal that they will file as individual candidates for delegates at large. Carter Harrison is very likely to take the same course, and these several candidates will all add to Democracy turmoil in Illinois.

A Town With Too Much Money.
It is said that Hibbing, Minn., furnishes the greatest example in America of prodigality in municipal expenditures. In that town there are just 1,011 voters and 855 of them are on the municipal pay roll. In one year Hibbing spent in addition to school costs, \$1,155,706. The greater part of this money came in taxes on an assessed valuation of about \$5,000,000. The United States Steel corporation owns iron ore land there and the largest deposit of iron ore in America is at hand. It is by virtue of this fact that the town has been able to assess such enormous taxes and unnecessary expenditures have thus been made possible. It is said that there are so many lights on the streets that the total number in this city of 12,000 is greater than the number in the streets of Cincinnati, Ohio, which has a population of 362,000. The yearly expenditures are more than for the whole state of Delaware and the salaries paid to municipal employees are such as to encourage the most ruthless extravagance and to give entirely wrong ideas of the value of property and service. Men

placed on the payroll as grave diggers have a total annual salary of \$9,350; and the amount paid for garbage collection totals \$130 a day.

Trouble for Secretary of State.
The need for some further revision of the Illinois election law toward simplification is apparent from the statement made yesterday by Secretary of State Stevenson, who called attention to the unnecessary and needless work occasioned by the necessity of rotating on ballots the names of candidates for delegates at large to the national conventions. The law "provides that the secretary of state shall certify to the county clerk of each county of each senatorial district beginning with the first senatorial district, the names of candidates for state offices in alphabetical order, and in certifying the names to the county clerk of the second senatorial district the secretary of state shall certify the names of the candidate under each office as first which was second in the first senatorial district, and so in rotation the county clerk of the other senatorial districts."

This provision is made on the theory that it is to the advantage of a candidate to have his name first under each office and that in fairness the names should appear in rotation. As a result, there is no advantage to a candidate in filing an early petition, and the time limit is such that the secretary of state will have but five days for preparation of fifty-one different kinds of ballots for the county clerk in that number of senatorial districts. The work will of course be provided for, but in the final rush there are great possibilities of confusion and error. In instances where there are no contests the rotation means a lot of work with no resulting benefits.

CHAPIN HIGH WINS FROM JACKSONVILLE SECOND TEAM

Score Board Shows the Figures 15 to 16 in Favor of the Chapin Lads—Return Game here Thursday Night.

Jacksonville High school second team, with the exception of one man, met defeat at the hands of Chapin Saturday night on the Chapin floor by a score of 15 to 16. The game at the end of the first half was 12 to 9 in favor of Jacksonville. Those who witnessed the contest characterized it as a rough one. The Chapin fans were particularly interested in the work of Tholen of the Jacksonville team. Tholen started his basketball career three years ago in Chapin, but is now a student here.

Chapin expects to play a return game here Thursday and this will give fans an opportunity to decide the merits of the two squads.

The following was the score:

ILLINOIS COLLEGE PLAYS ST. LOUIS U. MONDAY NIGHT

Fast Game Expected When Teams Meet in Armory Hall—Association Tournament to be Best in Years.

Basketball fans who had anticipated seeing the Illinois college-St. Louis University basketball game Saturday night were disappointed. The St. Louis school wired Coach Harmon, that on account of examination week, the team could not come Saturday night, but could make it possible to come Monday night.

Illinois has been idle since the game with Millikin university. However, Coach Harmon has been putting his five thru some pretty stiff work and the St. Louis bunch will find a formidable foe. The time for the intercollegiate basketball tournament is approaching and this meet, from the scores of the various squads of the association, promises to eclipse anything pulled off in former years.

NEW SPRING PETER THOMPSON'S DRESSES AT HERMAN'S.

SOCIAL EVENTS

Birthday Celebrated of Evelyn Moore

Evelyn Moore pleasantly entertained a number of her little friends Saturday afternoon in honor of her fifth birthday, at the residence of her parents, 642 South West St. The dining room was handsomely decorated with pink roses and ferns and the centerpiece for the table was a cake with pink and white candles.

The afternoon was pleasantly spent in various games and childish sports and during the time nice refreshments were served. At five the little folks departed after enjoying a happy time. The guests were Ruth Scholtz, Beryl Scholtz, Lucile Conkle, Arlea P. Rose and Beryl Crews.

Entertains at Auction Bridge

Mrs. F. C. Trefzer of 324 Sandusky street, entertained a number of friends Saturday evening at auction bridge. The house was decorated by the use of pink carnations and pink roses and the candle and candle shades conformed to the pink idea. A delightful two course luncheon was served. At cards the gentleman's prize was won by Alfred Doolittle, ladies first prize by Mrs. William Huffman and the consolation prize went to W. H. Stull.

ALL WINTER LADIES READY TO WEAR GARMENTS, MILLINERY AND FURS GREATLY REDUCED TO CLOSE OUT AT HERMAN'S.

WITH THE SICK.

Mrs. John Vieira, residing on North Diamond street, is very ill with pneumonia.

Miss Anna Brown who underwent an operation or appendicitis at Passavant hospital, expected to go home yesterday much improved. She is well pleased with her treatment at the hospital.

Porter Bell of Woodson, who was dangerously ill with perforated stomach from ulcers, was operated on at the Home sanitarium four weeks ago for the same and was able to return home Saturday.

John R. Bonds of Franklin is critically ill.

Mr. and Mrs. Charles McLamare brought their little son, Orville, to Our Savior's hospital Saturday for treatment.

George W. Turner, a former graduate of Illinois college, and who has been visiting here the past few days, underwent an operation in a hospital in Kansas City, Monday. When he gets well, he intends to resume his law study in the University of Chicago.

Mrs. A. J. Hoover, who has been a patient for the past two weeks at Passavant hospital, was able to return to her home on West College avenue yesterday.

THE BIRTH RECORD

Born, Friday to Mr. and Mrs. Burr H. Swan of Pittsfield a daughter. Mr. Swan is editor of the Pike County Republican. Mrs. Swan was formerly Miss Dot Dorsey and attended Illinois Woman's college here some years ago.

LEE BURNETT IS

SENT TO HOSPITAL
Lee Burnett of Franklin, who was arrested last Thursday on a charge of threats to kill, made by his brother, was to have had his hearing tomorrow. Saturday States Attorney Tilton filed a complaint against Burnett and before Judge W. E. Thomson he was committed to the Jacksonville State hospital for observation for a number of days.

STATES ROTATION OF CANDIDATES NAMES IS CONFUSING PRACTICE

Secretary Stevenson States Clerks Will Be Compelled to Work Night and Day in Order to Comply with Law.

Springfield, Ill., Feb. 5.—The rotation on ballots of names of candidates for delegates at large to national nominating conventions as provided by law is a useless confusing practice, according to Secretary of State Lewis G. Stevenson, who said today that clerks in his office would be compelled to work night and day in order to comply with the provisions of the law.

"A careful study of the provisions of the section relating to rotation of candidates has convinced me there is little benefit to be derived by filing petitions early," said Mr. Stevenson here today. "It is provided that the secretary of state shall certify to the county clerk of each county of each and every senatorial district, beginning with the first senatorial district, the names of candidates for state offices in alphabetical order and in certifying the names to the county clerks of the second senatorial district, the secretary of state shall certify the name of the candidate under each office as first which was second in the first senatorial district and so in rotation to the county clerks of the other senatorial districts."

If there is anything to commend this method of rotation candidates, Mr. Stevenson and his staff of clerks cannot see it. The law allows but ten days between the time for filing and the time for certifying to the various county clerks and five days of this period must be allowed to elapse for withdrawal of candidates, leaving but five days for the preparation of fifty-one different kinds of ballots for the counties in as many senatorial districts. This will literally require that the clerks in Secretary Stevenson's office work day and night.

SUGGESTS SHOOTING OF "SOME OF OUR FEEBLE MINDED JURYMEN"

SAN FRANCISCO, Feb. 5.—Shooting of "some of our feeble minded jurymen" was suggested today as a remedy for too frequent acquittals of women charged with shooting men, by Judge Frank P. Dunne, when a jury in the superior court freed Mrs. Malena Dyott, tried for the second time for an assault on her husband, Samuel Dyott, a Los Angeles real estate dealer.

Judge Dunne recognized among the acquitting jurors several who recently acquitted in his court Mrs. Mary Parnas, charged with killing Michael Weinstein, a crippled peddler who sought to renew relations with her.

"If some of these feeble minded woman who go around shooting men would turn their weapons upon some of our feeble minded jurymen, the world would be better off," he said, when he received the verdict.

Dyott who was shot while his attorney was attempting to reconcile him and Mrs. Dyott, threw himself flat on the floor of the court room today when an electric light globe broke. He said he thought another shooting affray had started.

UNEARTH SMALL FORTUNE.

San Antonio, Texas, Feb. 5.—From under the floor of a blacksmith shop, government detectives today unearthed a small fortune in unsigned bank notes. When the mass of green and yellow paper was counted, they said, they had recovered \$30,000 of the money stolen Oct. 8th 1915, when three men robbed a mail car at Rock Cut, W. Va., and obtained \$100,000 in currency being shipped from Washington for the use of banks in Illinois and Indiana.

HAS NUCLEUS OF GREAT FIGHTING MACHINE.

New York, Feb. 5.—The United States has in its navy the nucleus of the greatest fighting machine in the world, according to Frank J. Sprague, chairman of the committees on electricity and ship building of the naval consulting board, who returned here today after spending a month aboard the Battleship New York and witnessing the maneuvers of the Atlantic Fleet in Southern waters.

GERALDINE FARRAR TO WED.

Boston, Feb. 5.—Miss Geraldine Farrar, the grand opera star is to be married to Lou Tellegen, an actor, it was stated tonight. Miss Farrar herself after a concert here gave the information to Charles A. Ellis, her manager, the latter said. Ellis quoted Miss Farrar as saying the marriage would take place in New York next Tuesday.

GET BETTER CANDIDATES FROM CONVENTION.

Providence, R. I., Feb. 5.—From the "boss ridden convention" with deliberation you will get better candidates than you will from a primary," declared former President Taft in an address to the Southern New England Textile club here tonight.

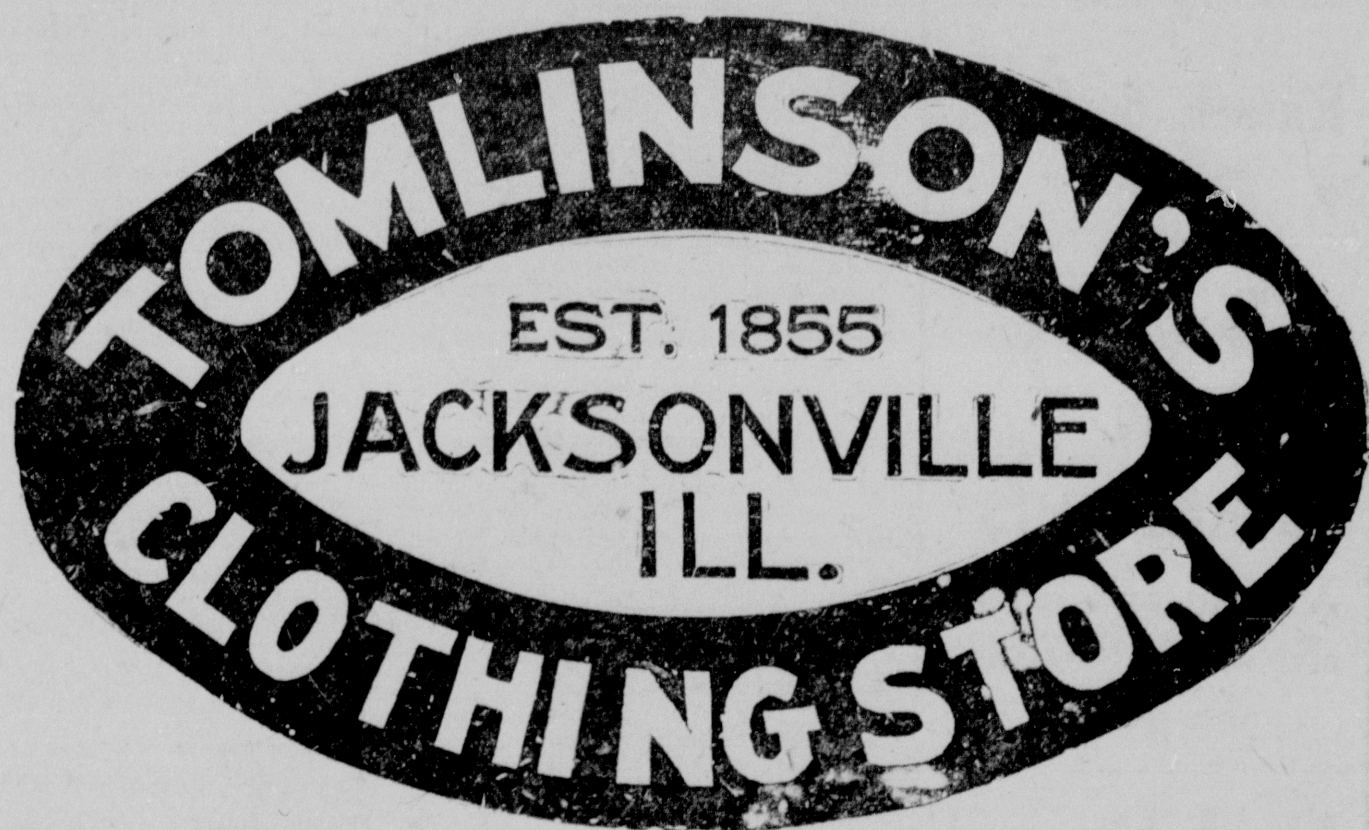

OBSERVE FOREIGN WARSHIPS.

Honolulu, Feb. 5.—Two foreign war vessels, reported to be the Japanese cruisers Tokiwa and Chitose, were observed coaling today in the lee of the Island of Maui, off the Hawaiian group, from a vessel said to be the Japanese collier Kwanto Maru.

MEETING OF MEDICAL CLUB.

A meeting of the Morgan County Medical club was held Saturday night with Dr. J. W. Hairgrove as the host. Dr. E. A. Foley had the principal paper of the evening, his subject being, "An Abstract of the Laws and the Commitment of the Insane."

Mrs. George Morgan and daughter Helen of Springfield are visiting Mr. M. Crum and family of Litterberry.

RAILROADS SEEK TO PROVE EMPLOYEES DEMANDS TOO GREAT

Arbitration of Differences Is Expected and Roads Are Preparing Data for Submission.

New York, Feb. 5.—Realizing that the wage controversy between the Big Four unions and the railroad managers is likely to be long drawn out, the railroad managers of the big lines are co-operating in obtaining data to lay before the board of arbitration which is expected to settle the controversy when it is formally presented by the unions. The railroads are said to have adopted the policy of ignoring the reports that the union men are not disposed to submit their contentions to mediation, but will demand that the railroads comply at once or accept a strike. Arbitration is the defense of the railroads, and to equip their attorneys with abundance of material, statistics are being rapidly gathered, covering all phases of railroad operation with respect to earnings and expenses.

The railroad managers figure that a strike can not be declared before July 1. They realize that the situation is grave, for the railway employees have come together for a basic work day of eight hours for the 400,000 men employed by the eastern roads. The belief which the employees are talking will be canvassed in March, and it is assumed that it will confer upon the union leaders the power requested, which is authority to make demands for the eight hour day and the one and a half rate for overtime.

Every railroad has a contract with its men providing that thirty days' notice shall be given of any desire to change the wage scale. The railroad managers do not doubt that this clause will be kept in good faith, as it has always been. That would make early April the time for submitting the demands. By that time the railroads will be equipped with the data and arguments for an explanatory reply, which is sure to be a rejection of the demands, in whole or in part. The resultant controversy may lead to a quick strike, but the observers believe, with the railroad heads, that arbitrators will eventually decide the issue.

In the statistics which the railroads are compiling, the wages paid, hours and conditions of service, the financial condition of the roads and so on will be considered. They expect to show that the union demand would impose on them an extra burden of \$75,000,000 to \$100,000,000 and to demonstrate their inability to pay the increased wages at prevailing rates of carrying.

Representatives of the unions are also busily preparing statistics to prove their arguments. An important portion of their contention will be figures tending to show that in the recent years of business depression the railroads took the money for their bondholders and stockholders out of the pockets of the working men.

It is said that elaborate data, now partly compiled, tend to show that the economies effected by the roads were greatest in the item "cost of transportation," which included the wages of engineers, firemen, conductors and trainmen.

Both parties are dissatisfied with the interstate commerce commission's tables of wages paid. These show the per diem wage. Representatives of both the unions and the railroads contend that a better approximation can be obtained from compilation of the actual amount paid to various classes of employees in a year. For instance, the per diem rate might be high, but would prove nothing if employees were working only part time.

According to a table prepared by railroad men, the proposed eight-hour demand is to be made by only 18 per cent of all the railroad workers. The railroads point out that this 18 per cent absorb 28 per cent of the total railroad payroll, or some \$382,000,000 out of a total of \$1,381,000,000 paid to all employees. They have gained award after award, the railroads claim, because of their stronger bargaining power, while hundreds of thousands of other rail-

road employees, such as station agents, machinists, shopmen, telegraphers, trackmen, etc., have plodded along without the cream gathered by the service men. This point is bound to be brought out strong as an argument against the demands of the service men this spring.

JACKSONVILLE WINS STATE PENNANT FOR RED CROSS SEALS

This City Heads List in Fifth Class—Total State Sales Set a New Record.

According to the statement issued by the Illinois State Association for the Prevention of Tuberculosis, Jacksonville was a pennant winner in the per capital sale contest. The contest was based on the sale of Red Cross seals and cities and towns were placed in six different groups. The fifth group was cities from 8,000 to 25,000 in population and it was in this class that Jacksonville carried off the honors, the record being 5.69 seals per capita, according to census figures. The sale through the state was the most successful yet conducted, 4,792,145 Red Cross seals were sold against 3,164,322 in 1914. The whole state record was such that Illinois is now near the top in the list of cities conducting anti-tuberculosis campaigns. The association attributes this to the hearty co-operation given by the press, and to a growing realization on the part of the people of the danger from this disease. Chicago was not entered in the contest for state pennants but the records show that the sales in that city were double those of last year. The pennant winning cities in Illinois are as follows:

Population 300 to 600, Yorkville, 7.51 seals per capita.
Population 600 to 2,000, Gilman, 11.49 seals per capita.
Population 2,000 to 6,000, Lake Forest, 6.47 seals per capita.
Population 6,000 to 8,000, Mt. Carmel, 1.87 seals per capita.
Population 8,000 to 25,000, Jacksonville, 5.69 seals per capita.
Population 25,000 to 100,000, Springfield, 3.62 per capita.

GAINED THIRD PRIZE.
Some time since a prominent publication, "The Signs of the Times", offered five prizes for window displays in all lines of goods and for advertising purposes; that is, the display that would best advertise the goods of the house within.

William T. Ruby with Myers Brothers took third prize which is a great victory when it is remembered he had the whole country in competition and in all lines of goods. The young gentleman has fine skill and tastes in this line and has on several occasions demonstrated his ability in arranging window displays.

TO VISIT AT LITERBERRY.
Mrs. Grant Gaines of the vicinity of Literberry, was in the city yesterday and took home with her for a visit her mother, Mrs. A. C. Rexroat of South Diamond street who will also visit while away her other daughter, Mrs. E. L. Clark and her son, Earl, all in the vicinity of Literberry.

Justin Wright was a caller in the city yesterday from Murrayville.

WOMEN QUALIFY FOR CLEANLINESS.

Five Will Probably be Appointed as Street Clearing Inspectors in New York City.

Five women inspectors for the street cleaning department of New York City were certified last week. News of their appointment is expected this week. Says the Evening Post: "This is the first time women have been certified by the Municipal Civil Service Commission as inspectors or examiners for the Department of Street Cleaning."

When the list was handed to Commissioner Fetherston and he learned that five women had been certified for the positions, he declared nothing suited him better.

"Women are the only persons who know the right way to clean house," said the commissioner, "and New York City is nothing more than a large, private house. With the aid of natural housecleaners I'm certain New York will in the future get a good cleaning."

The certified inspectors are Elma C. Cray, Eva Walzer, Eileen O. Ross, Anna Murphy, and Helen M. McNamara. Their salary will be \$1,200 a year.

CALL MEETING.

There will be a business meeting of the Woman's Christian Temperance Union Monday, Feb. 7, at the home of Mrs. J. T. Agnew at 2:30 promptly. As there are some business matters of importance to adjust we desire a full attendance of the members.

OVERWORKED MINISTER

TELLS HOW VINOL RESTORED STRENGTH AND VITALITY.

Jacksonville people will realize that we could not publish such letters as the following if they were not genuine and truthful statements of facts. The Rev. Mr. Hughes, ably Springs, Ark., says:

"I am a Methodist minister, and suffered from broken-down nerves, loss of appetite and sleeplessness. I was weak, my circulation was very poor, and I was not able to do my duty in my parish as I felt I should. I had tried various remedies but did not seem to get any better. Thru Mr. Gatlin of Beardon, Ark., I learned of Vinol, and it built me up. I regained my appetite, can sleep better and do more work."

There is no secret about Vinol. It derives its power to build up the overworked, broken-down, nervous system from the medicinal extracts of fresh cod livers without oil combined with tonic iron and beef peptone.

Anyone in Jacksonville who wishes to try Vinol can do so with the understanding that we will return their money if they are not satisfied. Lee P. Alcott, Druggist, Jacksonville, Ill.—Adv.

'NOW SO HAPPY' WOMAN SAYS

Mrs. K. S. Reisinger of Decatur Tells How Tanlac Relieved Her.

PRaises Medicine.

"I am so happy," Mrs. K. E. Reisinger, of Decatur, said recently to her friends, when discussing Tanlac, the new preparation now being introduced in Jacksonville, and the wonderful results she has obtained from the use of the "Master Medicine." Mrs. Reisinger resides at 331 North Edwards street, Decatur, Illinois, and has a host of friends in this vicinity. "I feel like a different woman," she continued, "for the medicine has done me a great deal of good. I have been troubled with my stomach and indigestion for some time. Before I began taking Tanlac, it was difficult for me to prepare a meal without the odor of the food making me sick. My appetite fell off and the little things that I did relish did not seem to agree with me very well. I finally reached a place where I could not sleep at night and when I would get up in the morning I would feel all tired out and sometimes quite weak. "I saw Tanlac advertised and decided to try a bottle though I must confess that I did so with great misgivings, as I had tried a number of other remedies and had obtained only temporary relief. Much to my surprise after I had taken the first bottle I began to feel better. In a few days my appetite had improved and I was able to eat any kind of food with great relish. I am no longer restless at night but sleep as peacefully as a baby and feel refreshed and bright when I arise in the morning. "I am so happy that I want everyone to know of my case and to know of the good Tanlac did me. I am more than glad to recommend this medicine to all my friends and to all others who are suffering as I was."

Mrs. Reisinger's case is typical of thousands of others in Illinois who have taken Tanlac with the most beneficial results.

Tanlac, the "Master Medicine," is now being sold in Jacksonville at the drug store of Coover & Co., 100 E. 1st St.

HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Dandruff, at any drug store, pour a little in your hand and rub it into the scalp. After a few days the hair stops coming out and you can't find any dandruff. —Adv.

SPORTS HERE AND THERE

News comes to us that Joe Tinker wants to buy an interest in the Peoria club of the Three Eye league. It is also said that Tinker wants Artie Hoffman to manage the club and wants to place some of his surplus players with the Peoria team. On the face of things it looks like Tinker is to be associated with the Peoria team. He is one of the best known baseball players in the world and a mighty good thing from an advertising standpoint. However, the idea has been to retrench in the Three Eye and to reduce the salary limit and to at least say with throwing distance of it, it is a club that Peoria can use many players from a major league club and keep within the limit, or anywhere near it.

Speaking of the salary limit, that has been the reef on which nearly all minor leagues have been wrecked. Time was when the Three Eye league was one of the strongest in the country. It had good towns and every one was making money or at least paying expenses. Then it was the same old story high prices for players and secret bonuses until the present time it is going to be hard for the Three Eye to recover from its slump of the past two years. However, President Kearney, whatever, else may be said of him, has the knack of keeping things going and the Three Eye league will be round doing business at the old stand the coming season.

Three Fingers Brown signed a contract last week to play with his old love, the Cubs. Brown is shipping out but he probably still has a few games left in his old arm. It will seem like home to Brown to get back in a Cub uniform again. For many years he bore the brunt of battle for the famous Cubs led by Frank Chance and the way was never too long nor the time too often for Brown to hurl. He was willing to start a game or go in and rescue some fading hurler. Frank Chance paid Brown the compliment of saying he was the strongest hearted pitcher he ever knew. This comes nearly being the truth. Brown was well against the strong teams and the old New York Giants in their heyday were pie for the three fingered one. Brown is a credit to baseball. While he probably has enough of the world's goods to keep him comfortably the remainder of his days, yet his countless friends hope he will still be able to travel in the big show for several years.

At the time that Brown signed a Cub contract Mike Prendergast also signed one. Mike jumped to the Peoria team from Peoria two years ago. He had a big season last year. He looks good and we are predicting that he will make good with a vengeance in the National league.

Jack Murray was sold by Tinker the past week to Kansas City of the American association. Time was when Jack Murray was one of the star outfielders of the big leagues.

MANCHESTER DOMESTIC SCIENCE CLUB HELD GOOD PROGRAM

Met at Home of Mrs. W. T. Knox— Pleasant Entertainment at East Union School—Other News Notes.

Geo. Watt has been appointed to act as rural mail carrier for the present or until an appointment is made thru the examination which is to be held some time in May.

A. C. Barnes had on display last Thursday in the bank window a very fine jack rabbit weighing 15 pounds. It is quite a pretty animal, its fur being very white and heavy at this season of the year. The rabbit was sent by Lyman Priddle from Georgetown, Minn.

Mrs. Fred Collins came up from White Hall Wednesday to attend the domestic science club meeting. Mrs. Collins is a member of this club. She was accompanied home by her mother, Mrs. John Langdon.

The meeting of the Domestic Science club was held at the home of Mrs. W. T. Knox Wednesday afternoon and the following program was rendered:

Plans solo—Miss Lois Maine. Paper, "Our Baby"—Mrs. Robert Vantyle.

Reading, "I Wonder Why"—Mrs. C. D. Chapman.

Vocal solo—Miss Lucile Knox. Demonstration, "Mock Angel Food Cake"—Mrs. E. O. Hess.

Mrs. Anna McCarty spent Thursday in Murrayville with Mrs. Harry Cade.

Mrs. Harvey Duncan and baby of Roodhouse visited Mr. and Mrs. Jno. Duncan Thursday.

A number of our people were out with a piece of smoked glass Thursday morning seeing the eclipse of the sun. While not a large space, yet the eclipse was very distinct as seen thru the glass.

Wm. Castleberry of Des Moines, Iowa is here visiting relatives.

Clarence Fox of White Hall was here Friday in the interest of the Fox furniture house located here.

Friday night the pupils and teacher of East Union school gave a play and following this a box supper was given. The receipts of the evening were \$15. Quite a number of young people from town went out to assist in the attendance. Funds are to be used for the school benefit. Arthur Rochester is the teacher.

Mrs. Peter Spencer was very sick Thursday night, but is some better.

MARRIAGE LICENSE BUSINESS DULL

Business in marriage licenses is dull at the court house. County Clerk Boruff and his assistants have not issued a license since January 28th. This is something unusual and shows that the girls are not taking advantage of their opportunities.

and there was not a club in either the National or American that wouldn't have been glad to get him. Time, however, finally gets all of them. Murray has been sowing up the last two years and last year McGraw let him go. Murray should be able to stick in the American for a few years.

Tex Rickard is going to promote the Winard-Moran match in New York. Rickard is a promoter. He will take some long chances and so far he has gotten away with them. Everybody thought he was crazy when he arranged the Jones-Johnson fight, but he made a lot of money. If Jeffries had won there is no telling how much money Rickard would have made. When Johnson was returned the victor agitation started about the pictures with the result that they were barred practically through the country. This was what Rickard had figured on as the velvet. However, he probably will get away with the match in New York and make some money. The only people we think who will get stung in the match will be the fans who pay a big price for a ticket. We imagine that the bout between Willard and Moran will be about as graceful and as interesting to look at as a fancy swimming contest between two elephants.

There was lots of basketball in this vicinity the past week. Springfield again triumphed the local high school five on their own floor by a score of 28 to 17. Springfield seemed to outclass the locals and Dunne of the capital city team was especially strong and proved a star for Springfield. According to reports the game was extremely rough and that the officials had been strict many fouls would have been called.

Rout college gave Lincoln college the surprise of the season on Friday evening when it defeated the Lincoln school in Liberty hall by a score of 27 to 22. The victory is a great one for the Rout team. Its members are all small and most of them mere boys. However, Coach O'Rourke has gotten the team to working smoothly and it probably has the best team work of any of the local fives and this is what will win lots of games.

The signing of Happy DeFratres by Dan O'Leary for the Davenport club has pleased lots of local fans. The consensus of opinion is that he will make good in Three Eye company if he gets a chance. Jacksonville has several other players who could deliver in minor league company. Clark and Denny look good enough to go to some league of the class of the Central association. Clark would be a valuable man for an outfielder and change catcher and Denny would make somebody hustle to beat him out of a job at second base. In fact if Denny would look them over more carefully at the plate there would be no question about his sticking and he can field with any of them.

MT. EMORY BAPTIST CHURCH.

The members of this congregation rejoice in the measure of success, which has attended the work of the church during the past year. Twelve months ago the present pastor came here from Monmouth where he had spent nearly nine years in the pastorate of the Calvary Baptist church of that city. The membership was scattered and discouraged at Mt. Emory. However, the pastor began work, and soon signs of progress became evident. At the close of the year January first, the church is said to be in good condition. Some of the older members assert the past year to have been one of the best in the history of Mt. Emory. The church is chocky organized and great results are looked for in the future.

Seventy-three members have been fellowshiped into the church since Dr. Scruggs came, and \$2,261.45 have been raised thru offerings and organized activities. Encouraged by past victories, the rank and file of the membership is more determined than ever to labor for the advancement of the cause of Christ.

GUESTS AT CLINIC.

Dr. Carl E. Black, in company with several other surgeons of a central Illinois spent Friday in Chicago where they were the guests of Dr. A. J. Ochsner at his clinic at the Augustana Hospital and were entertained and instructed by some special surgical work. In the evening they attended the regular monthly meeting of the Chicago Surgical Society.

ALBA HONEYWELL DIES AT HIS HOME IN HOOPESTON

Took Active Part in Anti-Slavery Agitation and Was Former Newspaper Editor.

Danville, Ill., Feb. 4.—Alba Honeywell, aged 94, died tonight at his home in Hoopeson, following a stroke of paralysis Tuesday. He was born in 1821 in Cayuga county, New York, and in early manhood taught school in that state. He became interested in anti-slavery agitation and was a delegate to the Buffalo convention which nominated James C. Freney as abolition candidate for president. He later studied law and after going to New York City became editor of the New York Eagle, later being associate editor of the New York Slavery Standard, collaborating with Wendell Phillips, Fred Douglass, William Lloyd Garrison, James Russell Lowell and others in opposing slavery.

In 1856 he moved to Chicago and became associated with the Chicago News, later moving to Logansport and Lafayette, Ind., and in 1871 to this country, purchasing land on which he helped lay out the town of Hoopeson.

Mr. Honeywell was wealthy, owning 3,000 acres of land in Indiana and Illinois, and much property elsewhere, including Florida and a summer home at Lake Bluff, North Chicago.

BRING FORECLOSURE SUIT.

Indianapolis, Ind., Feb. 4.—Suits for the foreclosure of two mortgages aggregating \$2,500,000 was brought in federal court here today against the Evansville & Indianapolis railroad company by the Farmers' Loan & Trust company of New York, trustees of the mortgages. It is understood that application for the appointment of a receiver will be made tomorrow.

ASSERTS RATES BAR INDUSTRIAL ENTERPRISES

Des Moines, Ia., Feb. 4.—Railroad rates unfavorable to interior Iowa cities bar many industrial enterprises from locating in those cities. John Wunderlich, secretary of the Cedar Rapids Commercial Club, testified at the hearing before Examiner A. G. Hegarty of the interstate commerce commission today.

STOMACH ACTS FINE! NO INDIGESTION, GAS, HEART BURN, ACIDITY

"Pape's Diapiesin" Fixes Sick, Sour, Upset Stomachs in Five Minutes

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. Pape's Diapiesin is noted for its speed in giving relief; its harmlessness; its certain, unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach troubles has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them, if what they eat lays like lead, ferments and sours and forms gas, causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

The Coming Baby! Hooray! Hooray!

Some Timely And Helpful Remarks for the Benefit of the Expectant Mother

Nothing else can so completely endeavor to the present and the future as the expected arrival of a baby. But in the meantime the comfort of the mother is of vast importance. There is a splendid external remedy known as "Mother's Friend" which exerts a wonderful influence upon the expanding muscles. They become more pliant, stretch without undue pain, make the period of pregnancy a period of enjoyment instead of apprehension. In a series of splendid letters from all over the country mothers tell of the great help "Mother's Friend" was to them. Even grandmothers tell the wonderful story to their own daughters about to enter the state of motherhood. Get a bottle of "Mother's Friend" today of your nearest druggist. It should be remembered that this splendid remedy is for external use only. Great care should always be exercised in using medicine for internal use. And it may be safely said that by the daily application of "Mother's Friend" there will be such ease and comfort as to rid the mind of the notion that internal medicine is necessary during this momentous period of expectancy. "Mother's Friend" is recommended by a host of women.

Use this splendid balm with your own hand guided by your own mind. For a free book of interest and importance to all mothers write to Bradfield Regulator Co., 306 Lamar Bldg., Atlanta, Ga. It relates the personal experiences of many happy mothers. It tells many things that all women should be familiar with; it is at once a guide and an inspiration. Write for this book.

PAUL DARRAGH HAS TAKEN POSITION IN QUINCY SCHOOL

Member of Graduating Class Illinois College, 1916, to be Coach and Teacher in Junior High School—Quincy Illinois College Notes.

Several members of the senior class have already completed their work for graduation, and will therefore, not return for the second semester. They are the following: Paul Darragh, Julia A. Huff, Earl Share, and C. H. Dixon. These students will return to receive their diplomas with their class next June. Paul Darragh has been appointed teacher of Science and coach in the newly established junior high school in Quincy, Illinois. The position is a very desirable one. Other members of the senior class who have just completed their work are under consideration for positions in high schools in Illinois and elsewhere. The demand for Illinois College graduates in the public schools seems to be constantly increasing.

Mr. Fred H. Ringe, Industrial Secretary of the International Committee of the Y. M. C. A., will speak at the Devotional Meeting at Academy Hall Sunday evening.

The Reverend W. L. Hurie, '06, of Roselleville, Ark., will speak at the chapel exercises on Thursday morning, the Day of Prayer for Colleges. Mr. Hurie was Manager of the football team in his student days. He will remain on the campus for a few days.

Miss Ruth Turner, of Equality, Illinois, is entering College for the second semester. Miss Turner was a student at Oxford College for the first semester. Several new students have registered in the various departments of the College. Four new girls are taking rooms at Academy Hall for the second semester.

Mr. A. O. Lindsay, '02, has recently purchased the "Quincy Whig." Mr. Lindsay was formerly engaged in newspaper work in Birmingham, Ala.

The College Catalog for 1916 now in press will be issued in a few weeks.

The Reverend Marion Hall, pastor of the Presbyterian church at Mt. Vernon, Illinois, was a visitor on the campus Wednesday.

The College Social Club held a very enjoyable social at Academy Hall on Saturday evening.

A HIGH PRICED MAN.
A. J. Peine, designer of the great clothing house of Alfred Decker & Kohn, was in the city yesterday calling on Myers Brothers. The gentleman is one of the few unusually skillful and able men so much in demand in the world. As designer of fine clothes for gentlemen he is a wonder and formerly commanded a salary of \$20,000 a year and for fear of losing him the firm admitted him to a partnership. His skill and taste are remarkable and command high prices.

Longings.

Just longing for the springtime
And the blossoms on the trees,
For the clover in the pastures
With the droning of the bees.

Just longing for the springtime

Just longing for the springtime
And the crack of bat and ball,
To hear the bleachers yelling
Is the finest time of all.

Aside from being dry there seems to be nothing in particular the matter with Kansas.

That man in New York who wants to bet that the St. Louis Browns will win the American league pennant should be placed under observation.

Congressman Rainey has presented a bill to create a tariff commission. The opinion of Editor Bell of the White Hall Register has not been received.

The committee appointed by the supervisors to visit the new county jails in the state will probably miss Jacksonville on their tour.

The newspapers in Madison county have decided when speaking of a member of the medical profession to refer to him as plain John Smith or William Jones. It will look queer if they have a big accident some time to see in the papers that the injured were attended by Bill Smith, Jim Jones and John Scott. Yet, as Shakespeare says in Hamlet, "There are more strange things in heaven and earth, than we ever dreamed of in all our philosophy."

Barry Is Dry.

Barry is now without fire protection. The tank is empty and the pump can not be used. The city officials are making every effort possible to have the pump repaired.—Barry Adage.

Did you ever stop to think that the citizen who pays rent is the real tax payer for he makes it possible for the owner to pay taxes, insurance and upkeep on the property. Yet we often hear people say, "Why he doesn't own any property."

Most all of us believe in preparedness but we are willing to let the other fellow join the army.

Lots of girls who talk of their fellows and call them kings usually find after they are married that they have drawn a jack.

The Carranza forces report that Villa has been surrounded. Most people will be inclined to wait and see to what extent he is surrounded.

President Wilson seems to be kidding himself into believing that he people of the middle west are for preparedness because they came out to hear him. The president should know better. The American people are always ready to attend a free show, especially where the president himself is on exhibition.

Anyway the president is wasting his time in making speeches as the Republicans in congress have always been in favor of adequate preparedness and the Democrats have been opposed to it. It is probable that when the test comes that the president will find that the men of the opposition will not over his program and his own party will be fighting him.

Well, the groundhog undoubtedly was able to see his shadow last Wednesday and according to the accepted custom he retired to his quarters for six weeks more. A lot of politicians would do well to emulate the example of the groundhog only they would be better off if they never came out.

The Chicago Tribune ran a headline Wednesday morning, "Mary Pickford in Seven Parts." We have seen Mary in almost every shape in the movies but we must confess we are at loss to know what she would look like in seven parts.

ELECTRIC RAILWAY TRAVEL

The electric railways represented in the American Electric Railway association, which holds its mid-year meeting in Chicago, on Feb. 4, carry each year some ten billion, five hundred million passengers and receive therefore some \$500,000,000. Their representatives are meeting to discuss two problems of the greatest importance to the industry at a time when operating revenues are decreasing and operating expenses are increasing at a rate that makes it hard to secure the \$3,500,000 of new capital, which even the present ex-

pansion and improvement of service requires per week, "Valuation" and "Rate of Return Necessary to Attract Capital."

On the evening of the 4th, the association will hold a joint dinner with the American Electric Railway Manufacturers association, at which Senator Oscar W. Underwood will deliver an address on "Government Regulation and Our Transportation Systems." Senator Underwood will be introduced by Judge Jacob M. Dickinson, former Secretary of War, and speeches will be made by C. E. Henry, president of the Indianapolis and Cincinnati Traction Co., who is also president of the Railway association, and Thomas Finigan of San Francisco, president of the Manufacturers association.

REV. W. E. SPOONTS RELATED TO LATE COM. CORNELIUS VANDERBILT

In a conversation which he didn't expect to be published, Rev. W. E. Spoonst said yesterday that his paternal grandmother was an own sister of the renowned Commodore Cornelius Vanderbilt, the very man who, with his capable wife, ran a ferry for a while, then enlarged to steamship lines, turned his attention to railroads and when the operators tried to squeeze him turned the tables on them and cleaned up a cool seven millions and went on to still greater things and founded a family, some of whose members have been noted for ability and eminent morality.

Mr. Spoonst's grandfather was Joseph Spoonst and had either a contract or sub-contract for building a wing to the white house in which the president lives. Mr. Spoonst thinks this must have been somewhere in the forties. Mr. Spoonst's father was born in Brooklyn, New York, but the family moved to southwestern Texas. Just before the war Mr. Spoonst's father decided to go to the Black Hills to seek his fortune but on his way, just before he crossed the northern border of the great state, he came across a Miss Diamond, was captivated, pressed his suit and was accepted and made the Lone Star State his place of residence and in it the worthy and efficient pastor of Northminster church was born.

Mr. Spoonst says he has never made any effort at all to correspond with his illustrious relatives or get in touch with them though it was suggested to him that he might get some railroad transportation if he did but he remarked he was able to pay his way as far as he chose to travel.

BECAUSE HE IS HAPPY.

WHAT MAKES HIM HAPPY?
Because he has helped to make so many others happy.

How has he helped make others happy?

By showing and proving to them that the Ford car was the only sensible car to buy.

In the beginning, people thought it was aristocratic to drive and ride in a high priced car, whether they were able to support it or not. But today it is different. People have become educated—educated to the Ford-Way, and the people are right.

Let the other fellow experiment "Safety First", and buy a Ford—and you will smile too.

CHICAGO LIVESTOCK MARKET REVIEW.

Cattle Prospects Brighter.

With only 37,000 cattle received this week the market showed a much better tone and prices moved up the scale 15¢. The advance was mainly on the good to choice steers which were exceptionally scarce. Top reached \$9.75 tho it is believed that a fancy load of heavy cattle would bring \$10. The most complaint about the trade at present is the low quality of receipts. Feeders from all directions seem to be impatient to get rid of their cattle to save feed. Fully 75 per cent of the cattle coming are short fed and most of them scarcely better than feeders. There is naturally little competition for the common steers while buyers are on a still hunt for anything with fat and quality. Many feeders say their corn is poor and that cattle are not taking on fat in the usual way. Apparently there is no disposition to send to other localities and buy corn at 75c and as soon as the soft corn is fed up the cattle are rushed to market regardless of condition. The oldest traders can not remember a time when heavy finished cattle were so scarce at this time of the year as they are at present. Indications are that there will be no change in this program of marketing as long as corn is high and consequently traders here believe that choice steers will gradually work to a high level and unless receipts are heavy the poorer grades will also move upward.

Good Export Outlook.

There is a good export outlet for all meat products and that is the main reason that the markets are on a healthy foundation. Packers are exporting a large amount of salt and smoked pork and are also finding a strong foreign demand for beef. Some cattle are being exported alive now for the first time in several years. If the foreign demand for cattle develops to any great extent it will mean a much better market here for good cattle around 1300 @ 1400 pounds.

Hog Market Very Satisfactory.

Lately receipts of hogs have moderated some, but the demand is still broad and insistent. Outside demand has become so strong that packers are not able to keep the lid on the market and this week prices went to \$8.10 for the best heavy which is the highest since last October. Sincere efforts are being made by the big buyers to hold hogs under the \$8 mark but with light receipts they have lost their grip in the trade and many dealers predict that hogs will go to \$8.50 this month. There is a tremendous demand for pork of all kinds and anything under \$9 will give the packers good profit.

Lamb at Record Limit.

The lamb market continues on the upward march although it has been seasonally high for a month. Some choice lambs sold here this week at \$11.25 which is far above any quotation ever made before at this time of the year. Most of the supply is coming now from Colorado and few lambs are available from any other source. W. H. Miner, a big feeder of Greeley, Colo., who is here superintending the sale of his string of lambs, says feed is very high in the west this year and lamb feeders have to get record prices to pay out. About 750,000 lambs were fed in Colorado this year, which is 100,000 more than last year. The supply is being rushed to market rapidly and it is a question whether the crop will last till the spring lambs are available from the south.

THE FARMERS CLUB AND COUNTY ADVISOR.

The officers of the Morgan County Farmers Club, obedient to the unanimous wish of those present at the meeting held last Thursday, are pushing the matter of securing the signatures of those farmers who want and are willing to help pay an

At the meeting Thursday it was shown that unless a large number of farmers got under the proposition the best results could not be had from an adviser, and, further that

until a goodly number of farmers have indicated their willingness to help in the matter there would be no effort made to secure financial aid from the United States, the County Board or the commercial interests of the county. The movement for an adviser must be initiated by the farmers. As soon as enough farmers show their interest, efforts will be made to secure financial aid from other sources.

If success attends the effort, the adviser will be selected and directed by the Morgan County Farmers club and it will handle all funds collected. The officers of the club are Chas. S. Black, president; Chas. A. Rowe, vice president; F. J. Blackburn, treasurer; H. J. Rice, secretary, and its advisory council is made up of its officers and Walter W. Robertson, Walter Houston, H. P. Joy, M. A. Hulet, A. M. Masters, G. A. Leach, Chas. E. Drake, Lewis Roberts, E. R. Hembrage, Alex. Ranson, Fred Deatherage, F. M. Spies, C. Justus Wright and James Myers. Papers for signatures of landowners and tenant farmers who wish to help support an adviser are now in the hands of the above men and J. H. Hubbs, Thomas Fox, W. E. Hall, H. N. Kitcher, H. M. Ranson, E. B. Hellen, Howard Stevenson, W. E. Murry, F. B. Henderson, C. H. Bennett and R. L. Harney, and at the county and newspaper offices in the county, so that any farmer wishing to sign may do so near his home.

These papers read as follows: The undersigned farmers and landowners of Morgan county, Illinois, believe that the employment of a county agricultural advisor is desirable and wishing to help perfect arrangements for the securing of an adviser as soon as possible are willing to pay annually for three years, not to exceed five cents per acre for the acreage set opposite our respective names for the purpose of paying an advisor and his expenses. It is understood that this is not a pledge or promise but is solely for the purpose of ascertaining the sentiment among Morgan county farmers as to the employment of a farm

adviser. Those who sign are expected to indicate the acreage on which they will pay and not to forget that the larger the acreage secured, the less the cost per acre. As soon as enough signatures are secured to justify it, a definite plan of financing the proposition will be submitted to those interested.

It is known that many landowners and tenant farmers favor the employment of an advisor. Some have already signified their sentiment but many have not done so.

If you are a landowner or tenant farmer and want a county advisor and are willing to help pay for one, go to some one who has one of the papers and sign it, or, if inconvenient to do so telephone some one and authorize him to sign it for you. Do it now for, if anything is to be accomplished this year, action must be had soon. Help yourself by helping the Farmers Club to get enough land signed up to justify definite and prompt action. Other counties are doing this—why not Morgan? Help "put Morgan county at the top".

"SELF CHOICE" SYSTEM FOR HOGS.

Mrs. Jennie M. Conrad, who operates a 5,000-acre farm in Indiana, uses self-feeders extensively for growing and fattening pigs. One bin contains a mixture of three parts of ground rye and one part oats and about 10 per cent tankage. This is the ration for pigs up to 6 to 7 months. From then on they get their fill of corn and are marketed at 8 to 10 months, weighing around 250 to 280 pounds.

Every feed lot and pasture is well shaded and a supply of clean, pure water is assured by the use of hog fountains.

"Pigs are never allowed to squal for feed on my ranch," declared Mrs. Conrad recently when asked what she thought was the most important essential in pig raising. "I am not so strong for self-feeders," said she, "except where pigs must be fed at a distance, and you have to rely on farm help. Then it is rare that the pigs ever go hungry, for the feeders are made to hold enough for a week or more."—The Farmers' Review, Chicago.

You have completely subordinated the author to her subject. In this you have shown artistic excellence. All thru the work you have presented your heroic subject always in action, the center and source of progressive movement.

Tho the form of the work is narrative it is in fact highly dramatic, merging at times into the tragic, and every scene is a step of progress toward the climax of triumph—the rounding out of a life of inestimable service.

BUSINESS MEN WILL GATHER IN WASHINGTON THIS WEEK

Fourth Annual Meeting of the National Chamber of Commerce Is Scheduled—President Wilson Is Booked for Address.

Washington, Feb. 5.—Arrangements have been completed for the fourth annual meeting of the Chamber of Commerce of the United States which will open on Tuesday, and will bring together the representatives of 700 commercial bodies of the United States. The business men of the country will have their say on the public questions of the day, and the country will listen attentively to the opinion of the practical man of affairs.

The coming meeting is expected to be the biggest gathering of live commercial men the country has seen, and that every section will be represented. The voice of the convention will also speak for the Philippines, Hawaii, Porto Rico, Alaska, and the American chambers of commerce in Paris, Berlin, Milan and Constantinople.

The convention will open on Tuesday morning, with the annual report of President John H. Fahey of the national chamber. Committees will also make special reports, covering such questions as merchant marine, seamen's law and the tariff commission, and the remaining sessions will be devoted to discussion of these big topics. Vocational guidance, foreign trade, home markets, labor conditions and the raw material markets will also have their share in the discussions.

The Chamber of Commerce of the United States was organized only three years ago. Oscar S. Strauss, secretary of commerce and labor, took the first steps which brought about its formation. At that time agriculture and labor had been well organized, but the business men of the country were shifting for themselves without a national body. Mr. Strauss invited a gathering of business men to Washington, to hear their views on public questions, and President Taft received them at the white house. So successful was this first meeting that a general organization was planned, and now the attitude of business men is registered so completely on all big questions that the president has a barometer of the thought of commercial men. The national chamber of commerce, with over 200,000 members, has supplanted in Washington that old familiar group representing "big business." Congress and the president are now able to get honest opinions of honest business men from all sections, and thereby a new and powerful force has been injected into the law-making of the country.

It is expected that Robert G. Rhett, a Charleston banker, will be elected president of the national chamber at the convention next week. John H. Fahey, the Boston publisher, will retire at that time, it is expected, and if precedent is followed Mr. Rhett will succeed him. The Charleston banker was formerly mayor of that city, and is a graduate of the University of Virginia, and practiced law for fifteen years in South Carolina. Mr. Rhett is now serving as chairman of the executive committee.

It appears certain now that President Wilson will address the big convention next week. The meeting will cover three days, and on one of the evenings the president will be heard.

RICH SMUGGLERS VS. POOR ONES.

New York, Feb. 5.—In the records of the U. S. circuit court covering the proceedings in smuggling cases are to be found many instances verifying the oft-repeated statement that the poor smuggler goes to jail, while the wealthy offender is permitted to depart with a fine and a solemn warning. Here is a record of a few of the cases during the last six years:

The Duveens, for smuggling art merchandise; amount involved, \$1,000,000; the fine, \$50,000.

John R. Collins, for smuggling jewels for Mrs. Helen Dewelle Jenkins; amount involved, \$200,000; the fine, \$4,000.

Nathan Allen, in same case; amount involved, \$200,000; the fine, \$12,000.

Mrs. Ada F. C. Adriance, wife of wealthy harvester manufacturer, for smuggling necklace; amount involved, \$12,000; the fine, 17,000.

Mrs. Lavender B. Dunlap, wife of millionaire, in controversy over jewelry; amount involved, \$61,194; the fine, \$26,142.

P. Sebosta, Syrian, for failing to declare a harp, sentenced to seven months.

S. de Billis, for smuggling 12 pairs of gloves, six months and fine of \$100.

Mrs. Roberta M. C. Hill, for smuggling coat worth \$6,000. Fine \$2,000 and sentenced to three days. First woman smuggler jailed in this country.

OBITUARY.

Phyllis Undine Nunn, the infant daughter of Mr. and Mrs. Clyde Nunn was born the 26th day of September, 1915 and died after a brief illness of pneumonia on Feb. 1, 1916 at the age of 4 months and 5 days. She was a grand daughter of Mr. J. C. Young of Shelbyville, Mo., and of Mr. and Mrs. W. M. Nunn of Naples. Mr. and Mrs. Clyde Nunn reside three miles west of Chapin on the Whisman farm. The funeral services were held Thursday morning at 10 o'clock in charge of Rev. L. Hadaway, pastor of the Chapin Christian church. Appropriate songs were sung by Mrs. Geo. Anderson, Mrs. Chas. Norgenh, John Taylor and Wilbur Williams. Interment was made in the Meredosa cemetery.

THE MINISTERS' MEETING.

At the ministers' meeting Monday morning Dr. A. B. Morey will take for his subject, at the request of the ministers, "Fifty-six Years in the Ministry."

ESTABLISHMENT OF NEW HIGH SCHOOLS.

Educational Press Bureau.

One of the arguments offered against the new high school tuition law was that it would discourage the establishment of new high schools and would cause the smaller high schools to discontinue. This argument was based on the assumption that people would surrender their local high schools in order to have the tuition paid out of the county fund. Six months under the new law have shown clearly that there was not the least ground for such a fear. In fact, there has never been as many new high schools established within a similar period in the history of Illinois. Instead of the two and three-year high schools discontinuing, they have sprung up all over the state. The high school supervisor has found it impossible to attend to one-half of the calls made upon him to visit these schools, to determine whether they are qualified for recognition. The determining factor in this matter is the desire of every community to have a high school so near that their children may attend school and sleep at home. It is impossible at this time, to give the exact data, but the end of the first year will show a remarkable increase in the number of two, three and four-year high schools.

Another prophecy that has thus far not been fulfilled, is the one made by the friends of the new tuition law, that it would cause a discontinuance of the ninth and tenth grade work in the one-room rural schools. It has done this only to a limited extent. Under the old high school tuition law, boards of directors were putting in the ninth and tenth grade work in order to escape having to pay tuitions. The present high school tuition law has completely stopped that movement. On the other hand, in counties like Logan, Macon, Sangamon and Platt, where the ninth and tenth grade work has been long established, the parents show practically no inclination to give up this work. They insist that they prefer to have their children take the ninth and tenth year work in the home district. In Logan county the number graduating from the tenth grade in the one-room country schools this spring will be about 100. This further emphasizes the demand of local sentiment for high school privileges as near to the homes of the children as possible.

ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

Give It When Feverish, Cross, Bilious, for Bad Breath or Sour Stomach.

Look at the tongue, Mother. If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "Fruit Laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

—And the ear could not tell the difference!

Christine Miller, the famous concert contralto, recently made a tour of the country singing with the New Edison Diamond Disc. Everywhere people were held spellbound by this daring test of tone re-creation, the ear could not distinguish the original from Edison's re-creation of it.

THE EDISON DIAMOND DISC PHONOGRAPH

Only Mr. Edison's perfected musical instrument could withstand such a test. No mere mechanical reproduction, but the re-creation of the original tone. The actual artist in all her artistry. A test which Edison's re-creation of any artist's voice or instrument, all performance will sustain in actual comparison with the artist standing beside Edison's new instrument.

Due to the unusual large trade during the few days before Christmas we sold our entire stock of Edison Phonographs, but we placed orders promptly and now have a complete line of all styles and prices.

Come In and Hear the New Edison Diamond Disc. No Obligation, of Course.

SOLDIERS IN TRENCHES HUNGRY FOR RELIGIOUS INSPIRATION

Student Secretary of International Y. M. C. A. Speaks at Biennial Convention of Kansas City Association.

Kansas City, Kans., Feb. 5.—The soldiers in the trenches in Europe are hungry for religious inspiration, declared Harry L. Heinzman, of Chicago, student secretary of the International Y. M. C. A. who spoke before the biennial convention of the Young Men's Christian associations of Kansas here today. Mr. Heinzman told of visits to many Y. M. C. A. camps at the British front and compared the crowds at the camps with those at the "wet canteens" in these words:

"We visited several Y. M. C. A. camps near Carterville and when we went over to the wet canteen, which supplies liquor and other refreshments to the soldiers in every British camp, we found less than a dozen men in the place, though it was dry and comfortable, while the Y. M. C. A. tent, which was dripping with rain, was crowded full."

"In Scotland conditions were the same. Hundreds of these Y. M. C. A. war centers have been established. They are usually in a hut, 30 feet wide and about 100 feet long, built of plain lumber. There is a kitchen for supplying everything Tommy wants except liquor. I saw heaps of doughnuts that reminded me of the sugar beets of Colorado. Women of every rank are spending hours of service in these huts. The crowds are so big it is a task to handle them. Col. Collander, in charge of all the hospitals of the British armies, stated that the Red Cross was the only organization that had equalled the work of the Y. M. C. A. in its service for the soldiers."

SOME NOTABLE BIRTHDAYS.

Sir Hiram Stevens Maxim, inventor of the rapid-fire gun and smokeless powder, two of the most important features of modern warfare, was 76 years old yesterday. He is the head of the inventions board for the British government, to pass on projects and inventions relating to munitions for land warfare. Although he has achieved his greatness and his fortune in England, Sir Hiram is an American by birth. He was born at Saugerville, Maine, on Feb. 5, 1840, of typical New England family. After a brief schooling, young Maxim was apprenticed to a carriage builder. Although he lacked the means for a college education, he found solace in the libraries, and was well versed in scientific data by the time he had completed his apprenticeship. Sir Hiram has styled himself a "chronic inventor." As a boy he dabbled with mouse traps, and finally perfected one that would catch mice. He was successful with various ideas, and when he thought out the workings of an automatic gun, he reached the zenith of his career. Meanwhile he had solved the problem of the electric light filament and had invented self-regulating devices for electric currents. He took his rapid-fire gun abroad, and it made a big hit, and honors were showered upon him. The rapidity of the Maxim gun called for smokeless powder, and Sir Hiram succeeded in making it. The noted inventor also took a hand at aerial navigation, but the powerful gasoline engine was not developed at that time and the aeroplane had to await the lighter engines of today. Sir Hiram was knighted by Queen Victoria in 1901. He is a member of many scientific societies.

A WORD TO THE WISE IS SUFFICIENT

Mr. Ford Owner! Can you tell me why the automobile concerns are so anxious to take your Ford car in on a trade? If you can't, and will come in, I will tell you. But as the roads are rough just now, I will explain thru the columns of the papers. IT IS BECAUSE THE KNOW THEY CAN SELL YOUR FORD ANY HOUR IN THE DAY, when they have never been able to sell their car at all, and after you get their car on your hands you are elected to keep it, whether you are suited or not.

The wise man buys a Ford and puts the balance in the bank.

C. N. PRIEST,
The Ford Man.

WOMAN'S COLLEGE NOTES.

Every one is cordially invited to attend the vespers services in Music hall Sunday afternoon at 4 o'clock. Mr. Stearns will give a number of selections on the pipe organ, assisted by Mr. McClellan on the violin.

The Home Economics club met Thursday afternoon at 4:30. This is composed of all those who are studying home economics.

On Saturday occurred another one of the demonstrations which are being given by those who receive certificates and degrees this coming June.

President Harker is out of the city for a few days looking after some business interests of the college.

Much interest centers in the week of prayer beginning on Feb. 7. Dr. A. C. Piersel of Urbana, Ill., will be at the college for the week and will hold conferences with students and teachers at various times. On Thursday he will give the sermon in the college chapel. This will be preceded by the usual prayer meetings that are always a part of this plan. All friends of the school and those interested in Christian education are cordially invited to be present at the service to be given in Music hall.

FIRE DESTROYS PLANT.

Ottawa, Feb. 4.—Fire of unknown origin tonight destroyed the plant of Grant, Holden & Graham company, Ltd., which has been engaged in manufacturing clothing and haversacks for the militia department. Eight employees were in the building when the fire started but all escaped safely. The loss on the building alone, a six story brick structure, is fixed at \$20,000. No estimate has been made of the value of the stock but a large supply was ready for delivery.

MISS GRACE MADDEN

HOME FROM SCHOOL

Miss Grace, daughter of Rev. and Mrs. F. B. Madden, 733 West State street, who has completed her junior year at the University of Illinois, came home yesterday. During the past semester in addition to her work in the university Miss Madden has been the student keeper of Rev. J. C. Baker, D. D., pastor of Trinity church, Urbana. The double duties overtaxed her strength and she will rest this semester. Miss Madden expects to complete her course at the university next year.

John Mapes of Carlinville, Ill., was a visitor yesterday with Morgan county friends.

WORLD'S MARKET NEWS

R. PORTS OF LOWER ARGENTINE OFFERINGS DEPRESS WHEAT

STOCK LIST MAKES GENERAL RECOVERIES TOWARD CLOSE

Close Is Heavy at 1% Net Decline—Losses Are Suffered in All Other Leading Staples.

Chicago, Feb. 5.—Reports that Argentine offerings to Europe were lower than those from North America and that Italy was offering to resell had a depressing influence today on wheat. The market closed heavy at 1% to 1 1/2% net decline, with May 1.32 1/2 and July 1.24 1/2. Losses were suffered too in all the other leading staples—Corn 1% to 1 1/2% to 1, and provisions 5c to 22 1/2c.

Unsettledness regarding possible damage to the winter crop was in a measure removed by the improved weather and there were predictions also that the cessation of cold would mean enlarged arrivals at Minneapolis and perhaps at other leading points.

Corn weakened owing to liberal receipts and as a result of a heavy increase expected on Monday. The break that took place in prices uncovered many stopless orders.

Oats gave way with other grain. Demand from the seaboard was slack.

Despite an advance in the hog market provisions turned down grade. It was explained that a somewhat larger supply of hogs was in prospect for next week.

IT TAKES SALESMANSHIP TO SELL AUTOMOBILES

It takes advertising to sell Fords. For example—Dr. Sipes, of this city, advertised in the Journal at 9 o'clock at night that he had a Ford car for sale. At 7 o'clock the next morning he sold his car and got the money. MORAL: Buy a Ford! It's a pleasure to own something that EVERYBODY WANTS. C. N. PRIEST, The Ford Man, is the agent. 228-30 South Sandy street, Jacksonville, Ill.

A SUCCESSFUL MEETING. Rev. J. F. Langton, rector of Trinity Episcopal church of this city, has returned from Chesterfield, Macoupin county, where he has been conducting a series of meetings in accordance with a movement of the Protestant Episcopal church of the country. There are three churches in Chesterfield, Episcopal, and, as the writer remembers, Presbyterian and Methodist, the names of the last two may not be correct, and all are without pastors and all united in the services conducted by the worthy gentleman from this city who preached twice a day for eight days and also conducted the funeral of Mr. Hounsley, so well known in this vicinity. The meetings were well attended and every effort was made to have them thoroughly satisfactory to all even to the extent of extempore prayers and similar brotherly co-operation.

T. W. DAVIES IS SERIOUSLY ILL. A letter from W. A. Edwards who was the assistant in the Passavant Hospital Campaign says that he is sorry to report that Mr. Davies, who had charge of the campaign, is seriously ill with pneumonia. He was taken seriously ill last Friday night and admitted to the City Hospital, at East Liverpool, Ohio, where they were at work. His wife and daughter have come on from Brooklyn to be at his bedside.

Many in Jacksonville will be interested and home for Mr. Davies speedy recovery.

W. G. Richardson of the Point vicinity was in the city yesterday.

MORGAN COUNTY DOLLAR FUND FOR AID OF WOUNDED SOLDIERS

Call to the Citizens of Morgan County for the American National Red Cross Society.

The horrible sufferings of the mangled soldiers of all nationalities in Europe make the heart sick. The number of the wounded is constantly increasing; already in France alone it is equal to that of all the men in Massachusetts; the beds, if placed side by side with one foot space between, would reach from Boston to Chicago. No country taken unawares could possibly be ready to care for such vast numbers. The government hospitals can care for only a small per cent. The remainder are housed in churches, school houses, hotels, and even barns. The need of funds to keep nurses in the field and to purchase medicine, medicines, absorbent cotton, bedding, etc., is too great to be met by any of the warring nations.

The Red Cross Society, early in the war, saw the necessity for giving its aid. The American National Red Cross, during the first year of the war, sent supplies, 71 surgeons, 253 nurses, and 43 members of a sanitary commission to Europe, a total of 367 persons. This personnel was divided into 5 French, 2 Russian, 2 German, 2 Austrian, 3 Serbian, and 2 Belgian units, and the sanitary commission went to the assistance of Serbia and Montenegro in its investigation.

Funds are becoming exhausted, hence, to its keen regret, the Red Cross is compelled to withdraw the personnel now in Europe with the exception of the Belgian units and the sanitary commission to Serbia. If work is to be continued it must have immediate assistance.

The latest Red Cross Magazine says: "It would be impossible for America to be too generous in its efforts to lessen the misery in Europe's war area."

In Morgan County alone, there are hundreds of persons, each willing and eager to give a dollar to lessen this misery. They do not want to pass by on the other side; they only await the call and the method.

The undersigned therefore ask you to mail a check for \$1.00, or more if you like, in enclosed envelope. Or funds may be left at any one of the Jacksonville banks or at the office of

Tender Teeth—the first sign of Pyorrhea

See your dentist twice yearly. Use Senreco tooth paste daily.

Your dentist will tell you, if you ask him, that you have gum recession; and that gum recession is caused by pyorrhea.

Unchecked, pyorrhea will warp and shrink and deform the gums. It will break down the bony structure into which the teeth are set—and you will eventually lose them. To save your teeth you will have to begin to fight this dread disease at once.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your

teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Sentinal Remedies Company 503 Union Central Building, Cincinnati, Ohio.

Senreco

When you brush your teeth, does it feel as though you were brushing against the quick? Do the gums sometimes bleed? This is because pyorrhea has caused the gums to pull away from your teeth, leaving the unenamelled surfaces unprotected.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

FRANKLIN INDEPENDENTS

PLAY TIE GAME WITH BLUFFS

Contest Ends in a Score of 32 to 32
—Franklin Team Issues Challenge to Other Morgan County Fives.

The Franklin Independent basketball team journeyed to Bluffs Friday night where they met the Independent team of that place and played a tie game, the score being 32 to 32. It was one of the fastest games that has been played on the Bluffs floor in some time.

When the game was over the scorekeeper announced that Bluffs was one point ahead, but a Franklin player cited the scorekeeper where he was in error, and it was learned that the score was a tie. The Franklin fellows wanted a play the game on to decide the victor, but the Bluffs five while the argument was going on had taken off their basketball suits, so the real champion was not known.

In the former game played by the two teams at Franklin, Bluffs was defeated by a score of 27 to 27. Teaney was easily the star man of the Franklin team, making 11 points. Blend, who played a forward position on the Bluffs team, is one of the best men they have had in some time. He made 16 points of the 19 points that they won in the first half. Franklin made 16 points during the first half.

The Franklin Independents are still hoping for a game with the Jacksonville Y. M. C. A. and have issued a challenge to any team in the community. The following is the lineup:

PRIZE FOR BEST DECORATED WINDOW ON WASHINGTON'S BIRTHDAY

Jacksonville Railway & Light Company to Give Electric Sign to the Winner Among Merchants.

With that characteristic progressiveness that has marked his career ever since he became general manager of the Jacksonville Railway & Light Company, Walter B. Miser made an announcement Saturday that will be of interest to all merchants. Mr. Miser is going to give an electric sign to the merchant who makes the best patriotic window display on Washington's birthday. The sign will be an American flag and will be four by six feet in dimensions. The contest is open to every business house in the city and the contest should result in some splendid window displays in a city where fine effects are a rule rather than an exception. The only condition attached is that the merchant who decorates his window for the contest will send his name to Mr. Miser.

It is expected to have a committee from the Daughters of the American Revolution view the windows and make the decision. One good thing about the contest is that the winner will have the sign installed free of charge. The offer of Mr. Miser is most commendable and should be an incentive to merchants to make attractive window displays whether they enter the contest or not.

CAPTAIN OF FAMOUS ROGERS

BATTERY DIES AT PATOKIA

B. F. Rogers, Formerly of Jacksonville, Played Important Part in Civil War.

Word was received in the city Saturday of the death of Captain B. F. Rogers, head of the famous Rogers Battery, who passed away at his home in Patokia.

Early in the conflict the gentleman, then a resident of Jacksonville, felt the call to take up arms for the defense of his country and chose the arm of light artillery, and in December, 1861, organized at Camp Butler, Battery K, Second regiment light artillery.

On Feb. 7, 1863, moved to Cairo and in March moved to Columbus, Ky. In June, 1862, one section was sent to Ft. Pillow, during the bombardment. The battery was then ordered to Memphis, Tenn., and in August returned to Columbus. In October moved with force under command of Capt. Rogers to Clarkston, Mo., which was occupied by 300 rebels. Attacked and destroyed the place.

In November moved to Memphis and was assigned to Fourth division, Sixteenth army corps, and moved. With the division, to Yocone Creek. Returned north to Memphis and Charleston railroad and remained on duty until February, 1863, when it moved with the division to Memphis. On May 29, moved to Vicksburg. Took part in the siege of Vicksburg. August 20 moved to Natchez, Miss. Remained in this place, engaged in various expeditions and raids, until December 11, 1864, when he moved to Memphis and went on garrison duty.

July 9 moved from Memphis to Chicago, arriving July 11, and was mustered out July 14, 1865.

The foregoing is only a brief outline of the experiences of the battery which Captain Rogers commanded. Wesley and Alex Platt of this city were lieutenants and a good many of the battery were residents of this city. A few months ago Captain Rogers visited Jacksonville and it was pleasant to see the delight which Alex Platt manifested on meeting his former brother officer, whom he greatly admired. Captain Rogers was a brave officer and remained in the service till his time was out. He will be mourned by a large circle of friends.

HERE COMES A NEW AUTOMOBILE

Are you going to jump in and buy it just because some friends or neighbor has the agency, and wants to sell it. We answer NO, let the other fellow experiment. Buy a Ford, and go when you please, and at less than two cents a mile.

Let C. N. Priest, The Ford Man, tell you about it.

GIRLS WIN HIGHER

AVERAGES THAN BOYS
The girls in the Petersburg high school win higher averages than the boys in their study and excel them almost two to one in honor awards. Supt. Finley presents the following figures of the Harris high school for the semester ending Jan. 21. Below will be found the segregated average of all the grades of all the students in each department:

	Boys	Girls
Latin	\$0.14	\$3.4
Mathematics	\$1.16	\$2.73
History	\$1.27	\$0.4
English	\$0.3	\$1.98
Science	\$8.24	\$1.29

SELL US YOUR DOLLARS

Would you give one dollar for one dollar and fifty cents?
Well, it is a funny proposition, but we are doing it right now. For every dollar paid on a new piano, up to one hundred dollars, we give you a full credit of one dollar and fifty cents. In other words if you pay \$10 down you get credit for \$15; \$100 paid down a credit for \$150.

WOULD AMEND THE

RESTRICTING CLAUSE
By a vote of 25 to 16, the members of the federation of the Decatur Bar associations of the third supreme court district in convention at Decatur yesterday went on record as being in favor of amending the restricting clause of the state constitution so that more than one constitutional amendment can be submitted to the electors at one time in preference to approving a convention for the revision of the constitution as a whole. The constitution now provides that only two amendments may be considered at one time. Some of the attorneys are of the opinion that if the restriction as to amendments were removed little by little the constitution could be amended until it would meet the needs of the present day.

Johnson, Hackett & Guthrie

February Sperry Magazines have arrived. 20c Green Stamps advantage of our man-tailored skirts. When you can buy a skirt made of Capps & Sons mannish materials, all wool and made to your order for the price of the ordinary ready made skirt, why shouldn't every lady have a skirt to fit? You know the cheap ready made has no individuality; usually made of 50 part wool goods and generally has to be altered. We are getting near the hundred mark. Ladies who bought a skirt want another. It is nice just to select your material and say you have my measure. It's no trouble at all. This helps you to a new suit too. Have your jacket made here and you'll get a tailor made suit cheaper than the suit. More ladies have skirt making departments to good dressing that's been done. This be worn so much and are a necessity. We make them from \$1.25 to \$2.25. Just think, an ACCORDEON PLATED SKIRT FOR \$1.25. Just buy your material and we do the rest for \$1.25. We want you to know more about our skirt making. We are getting in nice new materials for dresses and skirts. Some of the prettiest and newest silks for waists, styles that are scarce now and later you can't get them at all. The early bird this year will be the one that gets nearest to what she wants. There's going to be a big shortage. But don't forget to investigate the skirt proposition at

CHERRY WILL INSTALL AUTOMOBILE FUNERAL OUTFIT

He has Two Limousines and Touring Car to be Purchased at a Cost of \$15,000.

Cherry's livery will install an automobile funeral outfit about April 15. The outfit is expected will involve an outlay of about \$15,000 and will consist of a hearse, two limousines and a touring car. The limousines will each carry eight passengers and the touring car will carry seven passengers. All of the cars will be finished in black. The cars were ordered by Mr. Cherry thru a representative of the James Cunningham & Co., of Rochester, N. Y. The firm makes a specialty of manufacturing funeral livery and Mr. Cherry has had business associations with the firm for more than thirty years. Mr. Cherry has been considering the addition of the automobile equipment for some time and it will be used exclusively for funeral service. Mr. Cherry also expects to keep his present fine funeral equipment in first class condition for service.

The Cherry livery is one of the largest in Illinois. It was established more than thirty years ago by the elder John Cherry and has been owned by the Cherry family during all the years since with the exception of a short time when it was owned by William Poteet of Paris, Mo. The advent of the automobile has cut down the livery business, yet the Cherry livery today has more than eighty horses in service and the business has always been a profitable one. Mr. Cherry always operates on up-to-date lines and with the changing conditions has always kept up with modern methods. The result is that today the Cherry livery is known throughout the state as a modern establishment.

STRAWN HOUSE SOUTHWEST OF CITY CATCHES ON FIRE

Blaze Which Started in Roof Extinguished by Men Employed on the Farm.

Considerable excitement was caused at the old Strawn farm southwest of the city Saturday evening when fire was discovered in the roof of the dwelling. The dwelling house is a large structure and for a time it looked as tho the fire would be a bad one. Evidently the blaze was caused by sparks from the chimney. A small hole was burned in the roof and window in the third floor was burned.

The fire was discovered by Mrs. William Barbre whose husband is in charge of the farm. Mrs. Barbre gave the alarm and word was sent to Jacksonville. The farm is owned by Charles R. Lewis of this city. Mr. Lewis called Chief Hunt of the fire department but the distance was too great and the roads too bad for the department to be of any assistance. Some men working on the farm were near at hand and a water supply tank located on top of the building was brought into service and the blaze extinguished before much damage was done. Mr. Lewis considers himself lucky that the house was not destroyed. The loss is fully covered by insurance.

WHEELER TO TAKE MORE DRASTIC MEASURES

Sheriff John A. Wheeler of Sangamon county, following his conversion Thursday night at the Chapman-Alexander meetings, has announced that he would take more drastic measures than ever in cleaning up Springfield. He is after the open and semi-open gambling places, the former consisting of slot machines and punch boards. It has been hinted that there are certain social organizations in the capital city which might be somewhat handicapped should he extend his operations to include clubs, as he did in the Sunday closing instance.

RECALLS "BILLY" BROWN'S WAY OF MEETING LITTLE TROUBLES

The veteran editor of the Jacksonville Democrat has been giving some advice to Editor Bell of White Hall Register, who has written at considerable length because he did not land the postoffice job at White Hall. During his remarks he refers to the late William Brown of Jacksonville. He says in speaking about being disappointed in attaining office, "The best way to do is to take the medicine, swallow it and let the story apply that was once told by Billy Brown, the well known Jacksonville lawyer and chief counsel of the Alton road. Bill, who was a great fellow to go on hunting trips, started out with a party one time and when they got into camp far out in the northwest woods they agreed that the first man who found fault about the camp and especially the cooking, would have to do the cooking for a week. After being there for a few days, his friends put up a job on Bill and in two or three biscuits put in a quantity of quinine. These were handed to Bill, and when they sat down to supper they watched his countenance as he bit into the biscuit, after buttering it well. But Bill caught on to the trick, and without a grimace said, 'Boys these biscuits are a little bitter, but I like 'em.' And we believe that this is the best way to take all these little troubles of life. It makes one feel happier if nothing else."

METHODISTS TO ERECT BUILDINGS AT U. OF I.
Under the name of the Wesleyan Foundation a society has been organized and incorporated for the erection of a group of buildings near the University of Illinois campus at Urbana by the Methodists of Illinois. The board of trustees of the foundation held a meeting recently and decided to erect at once a social center building to cost \$100,000. Present plans are to have a \$150,000 church, a school of religion, library and dormitories. These buildings will be planned similar to those of the Oxford, England, college group. The movement is one of those steps taken by various religious denominations for the development of student life along moral and spiritual lines as well as social and intellectual.

MISSION STUDY CLASS ORGANIZED AT GRACE

A Mission Study class with an enrollment of fifty members has been organized under the auspices of the Epworth League of Grace M. E. church and the first meeting will be this evening in the parlors of the junior department of the Sunday school. Miss Lulu D. Hay has kindly consented to teach the class and this spells success for she is a lady of gracious personality and genuine missionary intelligence and enthusiasm.

The text to be studied is Sherwood Eddy's book, The New Era in Asia. It is the review of the near and far east that Mr. Eddy wrote on his return from the orient and is timely instructive and fascinating. The class will meet Sunday at five p. m. for an hour after which, during a recess of half an hour, before the League service, a delicious light lunch will be enjoyed. A full attendance is expected this evening for the first lesson.

FEAR FOR PEACH CROP.

DEMOCRATS ISSUE CALL FOR CONGRESSIONAL CONFERENCE

Will Meet in This City Tuesday to Select Delegates to National Convention and Talk about Party Interests.

A call for a conference of the Democrats of the twentieth congressional district was issued yesterday signed by Frank Williams of Greene county, chairman, and Bernard Gauze of this city, as secretary. The conference will be held at the Pacific hotel in this city next Tuesday. The call is for members of the congressional district but is general in character and all good Democrats may attend and take part in the deliberations which will no doubt be of a very interesting political character.

The purpose of the conference is to talk over matters generally relating to Democratic welfare to endorse the record of President Wilson and urge his re-nomination, and further to select two delegates and two alternates to the national Democratic convention. Congressman W. E. Williams of Pittsfield and W. I. Maney of Mt. Sterling are said to aspire to seats in this national convention and no doubt there will be several local Democrats willing to serve the party. The chances are strong too, that at least one Morgan county Democrat will secure the coveted selection.

DUCK SHOOTING SEASON

WILL OPEN FEB. 15.
The season for duck shooting will open Feb. 15 and close March 31. The state law on duck shooting will be strictly enforced by the state deputy wardens, and ample penalty for the violation of the provisions of the law as provided. The law especially prohibits shooting of ducks from motor boats; before sun-up and after sun-down; limits the bag to 15 and most important of all, no matter how many days a hunter has been out, he is not allowed to have more than 60 ducks in his possession at a time.
